

## Tomorrow's Power Today

Yamaha generators are full of state-of-the-art technology that not only guarantees high-level performance, but also makes them outstanding in operation, economy and durability.

Our range of generators provides customers with the most compact, reliable and efficient portable power sources for use on camp sites, boats, small outdoor vending stands, to power small home electric equipment or to supply back-up power in case of power failure.

These and many other aspects of Yamaha engineering provide the unmatched durability expected by users throughout the world for carefree power generation.

- High-output, 79cc engine
- Retro-modern style and light weight
- Up to 10.5 hours continuous running at ¼ rated load
- Large capacity muffler for quieter running
- Economy control for saving fuel
- Easy-to-use control panel
- Large handle for carrying by one or two people
- 4.2 litre fuel tank
- Easily detachable panel for servicing
- Complies with gas emission regulations
- TwinTech™ capability

# Tomorrow's Power Today

Get power at your fingertips, whether you need to run a cooker or commercial power tools. The EF2000iS is one of the lightest generators around, and its 21 kg weight means you can carry it with just one hand.

Despite its power, a large capacity muffler ensures that it runs with a low noise emission of just 51.5 dB(A).\* The compact control panel, with all dials on one side, makes it easy to use, and fits with the new clean and retro overall design. The 4.2 litre fuel tank will allow for 10.5 hours of continuous operation at 1/4 rated load. So, whether you take it camping or to a building site, this brushless inverter is up to the job.

\* at 1/4 rated load from 7 meters.

### **Inverter system with Pulse Width Modulation**

This industry-leading system produces high-quality, clean electricity. Its pure sine wave is as clean or cleaner than commercial power, making it suitable for products with built-in microcomputers.

### **Smart Throttle™ load-sensing throttle control**

This intelligent system automatically adjusts engine speed to precisely match load - resulting in greater fuel efficiency and noise reduction.

### **Oil warning system**

To prevent engine damage and costly repairs, and enhance long-term durability, the generator automatically shuts off when oil begins to run low. It cannot be re-started until oil is added.

### **TwinTech™ capability**

Connect two EF2000iS's for 3600 watts of maximum power (requires accessory cable available at extra cost).

Κινητήρας	
Κυβισμός	79cc
Μέγιστη αποδιδόμενη ισχύς	2.3 kW / 4500 rpm
Σύστημα εκκίνησης	Κορδονιέρα

  

Γεννήτρια	
Τύπος γεννήτριας	Inverter-Αθόρυβη
Συχνότητα	50 hz
