

A WaveRunner for all to enjoy

True affordability in 4-stroke watercraft – that's what Yamaha's engineers achieved with the design of the VX series. And, in doing so, they have attracted an entirely new generation of enthusiasts to the water.

Featuring the most fuel efficient engines in the industry, agile handling and great practical features, the VX series is just as suited to active watersports as it is to relaxing on the water. Add to that all the comforts you'd expect from a luxury watercraft like the VX Cruiser and you have the full package.

That's why the VX is the number one choice among rental operators worldwide.

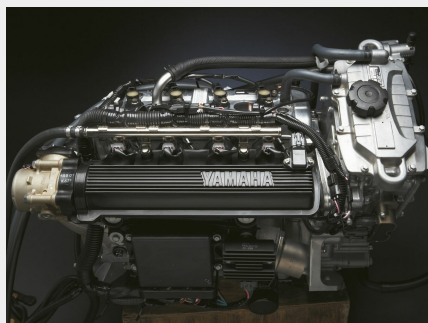

- 1052cc, 4-cylinder, 4-stroke, DOHC engine
- New lightweight NanoXcel® multi-chine hull
- Double-stitched Cruiser seat for all-day comfort
- Remote security and low-RPM mode
- Yamaha Engine Management System (Y.E.M.S.)®
- Re-boarding step for easy boarding
- Hyper-Flow jet pump
- Yamaha Sound Suppression System (Y.S.S.S.)®
- Convex dual mirrors
- Large & practical glovebox with dual cup holders
- Multifunction instrument panel with digital meter

Enjoy living your cruising dream!

For long-range performance cruising in ultimate comfort and luxury, look no further than the feature-packed VX Cruiser.

The new lightweight NanoXcel® hull has allowed the engineers to make the VX Cruiser 30kg lighter than before, allowing better acceleration, faster top speed, better fuel economy, fewer refuelling stops, and improved handling.

Giving the VX Cruiser its distinctive and appealing edge are many practical luxuries like convex dual mirrors, Reverse gear and Yamaha's remote security system with its "L" (low-RPM) mode. Add to that the new 70-litre fuel tank and you have a comfortable, long-range mile-eater.

1052cc, 4-cylinder, 4-stroke, DOHC engine

VX models are powered by a compact, ultra-lightweight, liquid-cooled four-cylinder, 20-valve engine – delivering 1052cc, with a DOHC – for class-leading performance. Electronic Fuel Injection (EFI) delivers smooth, high power output, with low fuel consumption and low exhaust emissions as standard.

New lightweight hydrodynamic NanoXcel® hull

The new NanoXcel® hull is sleek and stable with lightweight construction which is engineered to cut 30kg from the VX. The semi-Vee hull shape delivers stability and comfort, with maximum balance and grip during cornering – the moment the VX takes off, you are instantly at one with this compact machine. Pure PWC fun.

Low RPM/Security Mode™

With the VX Cruiser you have the ability to control both Low RPM Mode™ and Security Mode with a remote transmitter. This can be used to increase fuel-efficiency, reduce speed, or disable the engine to prevent unauthorised start-ups - for ultimate peace-of-mind.

Yamaha's innovative and comfortable Cruiser seat

The VX Cruiser's ergonomic, textured and double-stitched Cruiser seat and secure handholds ensure that whether in sharp turns or accelerating - and whatever the distance covered - both rider and passenger travel in maximum comfort. With the room and support to help you relax - it's what PWC cruising should be all about.

Glovebox with dual cup holder

While the large capacity glovebox is handy for storing essential items, it also features a convenient dual cup holder. You and your passenger can enjoy your ride with refreshments close-to-hand.

Hydro-Turf® mats and re-boarding step

The VX Cruiser welcomes you aboard with wide, slip resistant Hydro-Turf® mats. After you've been wakeboarding, skiing or swimming, a convenient re-boarding step makes it even easier to get in and out of the water.

Engine

Engine type	4-Cylinder; 4-stroke; DOHC; 5-valves
Supercharger	-
Displacement	1,052cc
Bore x stroke	76.0 mm x 58.0 mm
Compression ratio	11.4 : 1
Pump Type	155 mm Axial Flow
Fuel	Unleaded Regular Gasoline
Fuel supply system	Electronic Fuel Injection
Fuel capacity	70.0litres
Lubrication system	Dry sump
Oil capacity	4.3litres

Dimensions

Length	3.27 m
Width	1.17 m
Height	1.16 m
Dry weight	311kg

Features

Storage Capacity	57.0litres
Rider capacity	1-3 person
