

Pure R-series DNA

At Yamaha we are totally committed to creating a new generation of innovative and exciting motorcycles that add an extra dimension to everyday life.

With the arrival of the sporty new YZF-R3, every A2-licence rider can feel the riding excitement that comes as standard with our R-series bikes. In the city or on the highway, this lightweight supersport's pure R-series DNA gives a whole new level of performance.

Its powerful new 321cc twin cylinder engine and lightweight chassis benefit from the most advanced technology you'll find in the class. Which means that every time you get on your new R3, you just know it's going to be like nothing else.

- Lightweight A2-licence category supersport bike
- Developed using pure R-series DNA
- Smooth, strong 321cc inline twin cylinder engine
- Slim and light chassis with agile, sporty handling
- Aggressive R-series dual headlight full fairing
- Aerodynamic bodywork with mass-forward image
- Sporty and comfortable suspension
- Strong braking performance
- ABS fitted as standard equipment
- Ready for everyday use, city or highway

Lightweight supersport for everyday use

Yamaha's legendary R-series bikes set the standard in the supersport world thanks to their class-leading style, advanced technology and thrilling performance.

Now there's a new bike that fits perfectly into our supersport range between the top-selling YZF-R125 and the race-winning YZF-R6: introducing the all-new YZF-R3! Whether you're moving up from a 125 or you're new to two wheels, you can be sure that the YZF-R3 has been built using the same attention to detail that goes into every R-series motorcycle.

Take one look at the aggressive dual headlight fairing and aerodynamic bodywork and the pure R-series DNA is right there. New YZF-R3: a superbike you can ride every day!

YZF-R3

YZF-R3

The standard specification of the YZF-R3 does not include the seat cover as shown in the video and images.
