

Whenever, wherever the snow falls, team up with your Yamaha

Being out on the trails or powder is one of life's great feelings – creating emotional moments to last long in the memory. So enjoy our snowmobiles. Each one is designed and equipped to deliver supreme handling, performance, comfort, economy and reliability.

It's a winning combination you can depend on from your Yamaha – along with our innovative engineering and electronic control technologies that bring you and your machine closer together as a unit – to create a more satisfying riding experience than ever before.

So wherever you ride – on smooth or rough trails, soft powder or up at high altitudes – choose the perfect partner. Your Yamaha.

- EPS (Electric Power Steering) means relaxed riding
- Genesis 4-cylinder Top Performance 4-stroke engine
- Unique EXUP system – extra torque and acceleration
- Engine braking control with I.S.C.
- Advanced new 'Single Shot' rear suspension set-up
- New - 2 x Yamaha Performance Dampers (YPD)
- New - FoxFloat3® front & Fox Float3-XV® rear shock
- Lichtgewicht aluminium frame voor meer stevigheid en balans
- 1.75"/44 mm Camoplast® Back Country™ track
- 150 mm dual-keel skis for precise cornering
- Innovative design of body shape and ergonomics

Apex X-TX LE

Whenever, wherever the snow falls, team up with your Yamaha

On or off-trail, the Apex X-TX defines how a luxury crossover snowmobile should perform. With its revolutionary Electric Power Steering system, its new 'Single Shot' rear suspension and cutting-edge Yamaha Performance Dampers (YPD) as standard, it sets another new benchmark for comfort and exciting, dynamic handling, but does it in style – with quiet, sophisticated performance.

The great ride and comfort delivered by the EPS and the new suspension design is perfectly matched by the lively Genesis® fuel-injected 4-cylinder engine, which delivers outstanding power and torque across the RPM band.

Explore and enjoy a whole new level of luxury performance - aboard the Apex X-TX.

Electric Power Steering (EPS)

EPS makes it easier to control the machine with accuracy and precision – making you an even better, more relaxed rider. Its computer-controlled actuator provides the optimum level of steering assistance, so the machine feels lighter and more stable during turns, with reduced ski lift. EPS also helps isolate the rider from handlebar kick-back.

Genesis® 4-stroke Top Performance engine with EXUP

Yamaha's unique EXUP (Exhaust Ultimate Power Valve) technology works at its very best with this legendary 4-stroke, 5-valve engine. Torque characteristics are improved in the low and mid-RPM ranges by controlling pressure waves when intake and exhaust valves are open together. The result? Even more powerful acceleration.

New 'Single Shot' rear suspension with YPD

The latest Apex X-TX features a brand new rear suspension design with a single Fox Float3-XV® shock. The front shocks are the well proven Fox Float3®. In addition, the exciting and innovative new Yamaha Performance Dampers (YPD) are fitted to front and rear. The results? Faster cornering, even more comfort and less rider fatigue.

Lightweight aluminium frame

The lightweight frame is constructed from varying types of aluminium, to achieve an excellent balance of rigidity – the bulkhead is made using Yamaha's unique CF aluminium die-casting technology, while the steering gate section is pressure die-cast as a single unit. The rear frame accommodates a shortened muffler and helps to centralise mass.

Grippy, tough Camoplast® Back Country™ track

The skid is wrapped in a 146"/3705 mm Camoplast® Back Country™ track with a newly re-shaped profile. This large-size track transfers the legendary Yamaha 4-stroke power from the Genesis engine to the surface with great efficiency and grip. The result is outstanding acceleration and sheer 'snow power' in any speed range.

150 mm dual-keel skis

To gain maximum benefit – and enjoyment for the rider – from the unique Electric Power Steering (EPS) system, the Apex X-TX is equipped with 150 mm dual-keel skis. This comfortable, soft-riding design offers excellent floatation and more precise control on powder snow. The ski pivot point has also been set forward to reduce ski lift.

Engine	
Type / cilinderinhoud	4-takt / 998 cc
Cilinders	4-cilinder
Koeling	vloeistofgekoeld
Boring x slag	74.0 mm x 58.0 mm
Inlaatontwerp	3-kleppen
Verbranding	39mmMikuni x 4, Brandstofinjectie, Vloeistof verhit
Ontstekingsysteem	Digital T.C.I. w/T.P.S.
Uitlaat	2 kleppen, achteruitlaat (Ti) met EXUP
Disc brake system	Hydraulisch; Aluminium remklauw met 4 zuigers; Lichtgewicht geventileerde remschijf; Mechanische parkeerrem; Verstelhendel
Koppeling/Overbrenging	YVXC; Variabele verhouding; Magnesium kettingkast & cover; Achteruitversnelling
Suspension	
Wielophanging voor	Onafhankelijk; dubbele wieldraagarm
Schokdempers voor	FOX FLOAT3
Veerweg voor	219 mm
Wielophanging achter	Single Shot 146
Schokdempers achter	FOX FLOAT3-XV
Veerweg achter	350 mm
Measures / Dimensions	
Skihouding (midden tot midden)	1,080 mm
Spoortype	Camoplast® Back Country™
Totale hoogte	1,210 mm
Totale lengte	3,075 mm
Totale breedte	1,220 mm
Inhoud brandstoftank	34.6liter
Spoor B x L x H (")	15 inch x 146 inch x 1.75 inch
Spoor B x L x H (mm)	381 mm x 3,705 mm x 44.5 mm

Features

Elektrische starter	standaard
Achteruitversnelling	standaard
Handwarmers	standaard; 9 standen; Instelbaar; Onafhankelijke besturing
Watt koplamp, type	60/55W halogeen x 2
Gelijkstroomvermogen	standaard

Apex X-TX LE

Snowmobiles are built to operate within their design limits. For durability, reliability, but most important of all, operator safety, under no circumstances should the recommended capacities identified in the owner's manual be exceeded. Consult your snowmobile dealer when selecting a snowmobile for your particular needs. Always wear a helmet, eye protection and protective clothing. Always ride responsibly and within your limitations, respecting the environment as well as country and local laws. The riders depicted are professionals: don't attempt to emulate them. The specifications, measurements and appearance of Yamaha products will be varied from time to time without notice, and as shown here are illustrative only and are not a contractual description of products. Some models are shown with optional accessories.
