

Fun to drive, easy to own

People are at the heart of every Yamaha. And the new Drive2 EFI is a perfect example of how innovative thinking enables us to create a vehicle that can make such a positive contribution towards everyone's daily lives.

Using Yamaha-exclusive technology, we've developed the new EFI engine: the cleanest, quietest and most economical 4 stroke in the class. Which not only reduces running costs, but also minimises environmental impact.

And because you are always the focal point of everything we do, we've equipped the Drive2 QuieTech EFI with ultra-smooth independent rear suspension together with the most luxurious and spacious interior.

- Clean, quiet and economical EFI engine
- Sleek new body style and bold new colours
- Spacious automotive-style dash with extra storage
- Modular body with best in class occupancy space
- Luxurious independent rear suspension
- LED headlights and flashers
- Premium 10-inch tyres
- Tru-Trak II independent front suspension
- Light and strong HybriCore chassis
- Maintenance free rack-and-pinion steering
- Low maintenance filterless oil system
- Largest contoured seat in the industry

LED headlights

This luxury PTV is built to move you 24 hours a day. And the first time that you take the Drive2 out after dark you'll be amazed at the power and width of the new LED headlight beam. Producing double the brightness of conventional halogen lamps and using less than half the energy, the LED system shows the way ahead!

USB ports

The Drive2 has been designed to offer the ultimate driving experience, and to ensure that phones and tablets are kept charged, the large automotive-style dashboard is equipped with two USB ports. A storage bin with a non-slip mat is the ideal place for devices, and there's plenty of space for carrying personal items.

Larger automotive-style dash

The Drive2 has been designed with the modern golfer in mind, and features an automotive-style dashboard with increased carrying space and large cup holders in its central area, together with additional storage compartments for personal items and mobile devices.

Practical and durable modular body design

The Drive2's modular body design makes it easy to own and maintain, enabling operators to minimise any down time and increase their profitability. A large rear panel gives easy access to the engine for routine maintenance, and the rugged bumpers and durable body panels are built to ensure optimum strength and durability.

New bodywork and enhanced interior

With its restyled bodywork and range of bold new colours, the Drive2 is the most attractive and luxurious Yamaha golf car we've ever built. Offering the most spacious interior and best legroom in the business, the Drive2 also comes with the widest seats on any model, as well as a redesigned dashboard with larger storage compartments.

New independent rear suspension

As well as being the quietest petrol golf car, the Drive2 QuieTech EFI is also the first in its class to be equipped with independent rear suspension - making it the world's most luxurious model. Combined with the widest in class seating and best in class legroom, the Drive2 EFI's sophisticated suspension delivers supreme riding comfort.

Power supply/Drive train
