

Make every ride a smart ride

During the past 10 years the Yamaha YBR125 has improved the lives of over 150,000 people. And our latest Urban Mobility line-up features the new YS125 – a lightweight commuter with the autonomy, reliability, style and value that you're looking for.

We've kept the characteristics that made the YBR a success, and improved and redesigned the engine, chassis and body to make the ultimate urban commuter motorcycle.

You'll love its sporty design, low fuel consumption and Yamaha durability - as well as an extended riding range and a more relaxed seating position. The YS125 has what it takes to move you. Every day.

- Lightweight 125cc commuter motorcycle
- Lightweight steering and easy handling
- Refined and sporty design
- Outstanding autonomy with Yamaha reliability
- 18-inch wheels for agility, stability and comfort
- 14-litre fuel tank and an average fuel consumption of 2.0l/100km
- Natural and comfortable riding position
- Strong and lightweight tubular frame
- Plush long-travel suspension for premium comfort
- Unified Braking System (UBS) for smooth stopping
- Gear indicator and Eco indicator

Ride Free. Ride easy

We've been building reliable commuter motorcycles for over 60 years. Every day, hundreds of thousands of people just like you rely on their Yamaha to move around the city. And now, to replace the YBR125, we introduce the just as dependable YS125.

You'll be impressed with the YS125's outstanding fuel autonomy as well as its refined looks – and once you feel the relaxed riding position, you'll know that this lightweight commuter is the smart lifestyle choice. Smooth handling and easy steering come as standard thanks to the plush suspension and 18-inch wheels - and the 14-litre fuel tank gives you plenty of riding between fuel stops.

Yamaha YS125. Ride Free. Ride Easy.

Easy handling characteristics

Whether you're filtering through congested city streets or riding along secondary roads, the YS125's lightweight chassis and plush suspension help to make every journey easier and more enjoyable. Its 18-inch cast wheels deliver agility with stability - and the 2.75-18 front tyre and 100/80-18 rear tyre give a comfortable and confident ride.

Long range fuel tank

The 125cc 4-stroke engine is built to achieve outstanding fuel autonomy - and being a Yamaha, you can be sure that unrivalled reliability and durability come as standard. With its long-range 14-litre fuel tank and an average fuel consumption of 2.0l/100km, the YS125 is giving you the freedom to ride easily, quickly and economically.

Upright riding position

The ergonomics on the YS125 have been developed to ensure that riders of varying sizes will feel at ease as soon as they sit on this lightweight commuter. The 795mm seat height gives a natural and upright riding position to make the journey to work more relaxing and enjoyable - and to give added passenger comfort there's a convenient grab bar.

Refined and sporty design

Commuting is fun when you're riding the YS125. With its refined and sporty appearance, this lightweight brings a fresh look to the Urban Mobility class. Featuring a restyled headlight and compact headlight cowl - together with sporty air scoops and an upswept black muffler - the YS125 offers an ideal mix of economy, practicality and good looks.

Smooth, reliable and economical engine

When you're riding to work or college, dependability, affordability and low running costs are of paramount importance. The YS125's fuel injected 125cc air-cooled 2-valve SOHC EU4-compliant engine is one of the most economical and dependable in the class. Which makes this one of the smartest ways to move and live in the city.

Stylish headlight and taillight

You know that when you look good you'll feel good, and so we've given the YS125 a sporty face featuring a newly designed headlight surrounded by a compact cowl. And at the rear end the newly designed tail light unit and license plate holder - as well as the upswept muffler - reinforce this lightweight commuter's sporty character.

Engine
