

Buster - the carefree choice

The most popular motorboat in the Nordic countries, Buster offers an extensive line-up of versatile, tough aluminium boats. The size and layout options cover the full spectrum of boating, from the demands of work - to the pleasures of recreation.

Our designs and quality are uncompromising. Our traditional craftsmanship renowned for generations. So the ruggedness, everyday practicality and seaworthiness of a Buster is already legendary.

Buster Boats is now very proud to be a part of Yamaha Motor Europe N.V. This exciting new partnership will enable us to work more closely together to develop and create ever more innovative products.

- Carefree
- Buster Q 10" as standard
- The Buster Lx is CE certified for six persons.
- Fixed fuel tank - 53 litres
- Unsinkable
- Rainwater draining system
- Composite floorboards
- Painted colour topsides with alternative colours

Buster - the carefree choice

Over time, the Buster Lx has become a truly versatile, sporty favourite. Not least, because it combines so many attractive and practical features usually found only on much larger boats.

The Buster Lx is the smallest boat in the range that's driven from separate seats, and the compact consoles with wrap-around windscreens provide shelter for up to six passengers. The hull geometry gives a comfortable ride regardless of weather, while the Buster Q infotainment system contributes to safety.

It does not suit the nature of this boat to lie in port. With the right options and accessories, the new Buster Lx offers the active boater the option to extend the boating season.

NFB steering

The Buster Lx has NFB steering for additional comfort.

Separate seats

The smallest boat in the range that is driven from separate seats

Buster Q - the future of powerboating

Not just a chartplotter - Buster Q is a completely new user experience, integrating features like navigation (powered by C-Map), infotainment, advanced sonar functionality, Yamaha gauges, Wi-Fi, and seamless over-the-air updates. Buster Q is as powerful as many laptop computers.

Wrap-around windscreens

Regardless of how the boat is used, the consoles with their sleek, wrap around windscreens create a uniquely safe and sheltered cockpit.
