

Buster - the carefree choice

The most popular motorboat in the Nordic countries, Buster offers an extensive line-up of versatile, tough aluminium boats. The size and layout options cover the full spectrum of boating, from the demands of work - to the pleasures of recreation.

Our designs and quality are uncompromising. Our traditional craftsmanship renowned for generations. So the ruggedness, everyday practicality and seaworthiness of a Buster is already legendary.

Buster Boats is now very proud to be a part of Yamaha Motor Europe N.V. This exciting new partnership will enable us to work more closely together to develop and create ever more innovative products.

- Comfortable X-Craft suspension seats for 5 people
- Aluminium floor
- Painted colour topsides with alternative colours
- Helm Master® system available as option
- Twin engine installation
- Rainwater draining system

Buster - the carefree choice

The Buster Phantom with its impressive 32 ft (9.5m) LOA, 700hp twin V8 Yamaha outboards, 16 roaring cylinders, and 400nM range redefines the premium aluminium open boat segment. Driving the Buster Phantom with WOT (Wide Open Throttle) is like flying without wings!

However, the extreme effects of gravity and wave action are effortlessly counterbalanced by the silky smooth ride of the deep V hull and the suspension seats with proper grab handles for up to five passengers.

Twin engines give you absolute reliability when you're offshore - or in the outer archipelago. The new Buster Q-equipped Buster Phantom - the fastest and most elegant way to see the future of powerboating!

Buster Phantom

Helm Master® system available as option

Yamaha's unique and exclusive Helm Master® system is nothing less than a revolution in boat handling and control. The intuitive joystick control makes manoeuvring in close quarters a breeze. Just push the joystick in the direction you wish the boat to go and it follows your command. Elegant, simple and safe!

U-shaped sofa

The huge U-shaped sofa aft, combined with the cockpit table and two swivelling seats provide great space for socialising with friends and family.

Stainless steel hardware

The Buster Phantom has deck hardware and railings in stylish stainless steel.

X-Craft suspension seats

Due to the special X-Craft offshore suspension seats, you can drive fast even in heavy weather

Electro-hydraulic steering

The Buster Phantom has electro-hydraulic steering as standard.

Buster Q - the future of powerboating

Not just a chartplotter - Buster Q is a completely new user experience, integrating features like navigation (powered by C-Map), infotainment, advanced sonar functionality, Yamaha gauges, Wi-Fi, and seamless over-the-air updates. Buster Q is as powerful as many laptop computers.
