

Finnmaster - made in the midnight sun

Welcome to the country of the midnight sun. Here, Finland's proudest boat-builders live and work under a magical summer sky painted in the most beautiful colours.

Every boat that leaves the boatyard is built and designed with decades of knowledge, experience and with a clear vision; we build the safest boats with the smartest solution – without compromising on modern design.

Our boats are tested in a real marine environment, in the archipelago outside our boatyard. Our professional pride knows no limits and we are eager to check the quality down to the smallest detail. We do not make any compromises when we build a boat for you and your family.

- Tough, soft-riding hull
- Light and precise hydraulic steering
- Easy control and handling
- Spacious and practical layout
- Stylish and timeless design
- Easy access and high freeboard
- Lots of well planned storage space
- Comfortable offshore seats
- Practical boarding steps
- Fender baskets, fenders and covers
- Sundeck for U-shape sofa (option)

Finnmaster - made in the midnight sun

The R7 is perfect for daytrips with friends and family, its practical layout and sophisticated Bow Rider design making it a pleasure to be aboard and ride in, even when the weather is less than kind - that's because you and your passengers are safely protected from wind and spray by the wide, high windshield.

Also, when the weather does turn, the canopy is readily available and accessible from its stowage as soon as it starts blowing!

With its comfortable seats, generous U-shaped sofa (which is easily converted into a sundeck) and open foredeck with smart fender storage, the Finnmaster Husky R7 really is a benchmark for practical luxury - but with easy maintenance.

Finnmaster Husky R7

Comfortable soft-riding hull design

Ride comfort is a vitally important factor in any successful boat design, so all our hulls are expertly crafted to master the water and deliver a soft, secure-feeling ride for driver and passengers alike - whatever the sea conditions.

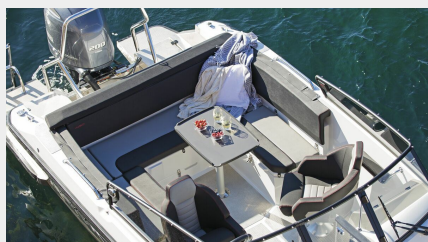

Precise handling and control

Handling is an area that gets special attention from our designers, which is why Finnmaster boats are renowned for their user-friendly characteristics and easy manoeuvrability. We also test our boats with a range of Yamaha engine power options to ensure that whatever level you choose, your boat responds in just the way you expect. Every time.

Cool black graphics scheme (option)

The black graphics give Husky aluminium boats more attitude and character.

Comfortable trips guaranteed

The sturdy, comfortable offshore seats - and the large U-sofa at the stern - are all well protected from wind and spray by the tough, wrap-round glass windshield. So everyone rides in comfort and style.

Sun deck option

The generous U-shaped sofa can easily be converted into a sun deck.

Smart storage

This model is designed for having fun out on the water, so there's practical storage space to stash the things you'll need for the trip, both in the bow and under the stern seating. What's more, when you open one of the gas-strut hatch lids under the seating, the cushions remain conveniently in place.
