

Finnmaster Pilot 7 Weekend

Finnmaster - made in the midnight sun

Welcome to the country of the midnight sun. Here, Finland's proudest boat-builders live and work under a magical summer sky painted in the most beautiful colours.

Every boat that leaves the boatyard is built and designed with decades of knowledge, experience and with a clear vision; we build the safest boats with the smartest solution – without compromising on modern design.

Our boats are tested in a real marine environment, in the archipelago outside our boatyard. Our professional pride knows no limits and we are eager to check the quality down to the smallest detail. We do not make any compromises when we build a boat for you and your family.

- Comfortable soft-riding hull
- Superb handling and manoeuvrability
- Large and practical aft deck
- High freeboard for comfort and security
- Excellent visibility from the helm
- External steering position option
- Light and airy 4-berth cabin accommodation
- Separate toilet compartment
- Great galley with cooker and fridge
- Plenty of well planned storage
- Fender baskets, fenders & covers

Finnmaster Pilot 7 Weekend

Start making plans for longer trips

As its name tells you, the Pilot 7 Weekend is the perfect boat for ... well, the weekend. So when you plan something longer than a day-trip, you'll find this a very comfortable and accommodating boat.

The spacious cabin has sleeping berths for 4 people, an electric-flush seawater toilet in its own separate compartment - and a well planned galley with cooker and fridge. There's plenty of storage space and a large cockpit that's not just perfect for relaxed dining, but becomes the perfect place for sunbathing and taking a dip when the weather smiles.

Just like the rest of the Pilot boats – the Weekend makes light work of our variable northern European weather.

Finnmaster Pilot 7 Weekend

Comfortable soft-riding hull design

Ride comfort is a vitally important factor in any successful boat design, so all our hulls are expertly crafted to master the water and deliver a soft, secure-feeling ride for driver and passengers alike - whatever the sea conditions.

Precise handling and control

Handling is an area that gets special attention from our designers, which is why Finnmaster boats are renowned for their user-friendly characteristics and easy manoeuvrability. We also test our boats with a range of Yamaha engine power options to ensure that whatever level you choose, your boat responds in just the way you expect. Every time.

Spacious aft deck area

The extremely spacious aft deck is the perfect fishing platform, the ideal spot to lay out a family supper - and a great place to be when you're flying across the water enjoying yourselves.

Cabin with overnight accommodation

The cabin offers full standing headroom and overnight accommodation for up to 4 persons, with a well equipped and convenient galley that includes a cooker and 'fridge.

Separate toilet compartment

This separate compartment contains a sea water toilet with electric flush.

Excellent visibility from the helm

The view from the driver's position is excellent in all directions and the large windows in the spacious and airy cabin let in plenty of light.
