

Follow the Darkness

We took the latest engine and chassis technology and created the light and versatile MT-03 that comes with the same dynamic mass forward styling as our bigger MT models.

Whether you're new to riding or stepping up from a smaller model, the MT-03 is built for riders like you who want their next bike to be an integral part of their daily life.

Its 321cc twin cylinder liquid cooled engine delivers plenty of mid to high rpm torque for a lively ride - and this naked A2 class bike features a compact chassis and upright riding position for sporty handling with easy agility. MT-03 from Yamaha. Real performance for every day.

- A2 license class model with dynamic MT DNA
- Liquid-cooled twin cylinder engine
- Compact and lightweight chassis
- Long swingarm and Monocross suspension
- Dynamic mass-forward body design
- Naked body with distinctive MT styling
- 10-spoke alloy wheels with 140-section rear tyre
- Moderate 780mm seat height for good ground access
- Multi function display with analogue tachometer
- ABS-equipped 298mm front disc & 220mm rear disc
- LED position light and LED tail light

Embrace the Darkness

The lure of the Dark Side of Japan grows stronger every day. And more riders are turning their backs on conventional models and coming over to one of the most exciting new movements in motorcycling.

Yamaha's dynamic MT-03 represents the new wave in motorcycle design. A sporty and versatile character comes together with an upright riding position and compact dimensions to make this naked lightweight an ideal choice for new, returning and upgrading riders.

Powered by a lively 321cc parallel twin cylinder engine and equipped with an easy handling chassis, this motorcycle makes you look forward to every ride on any road. MT-03 from Yamaha. Come and embrace the Darkness.

LED position light and LED tail light

The minimalist front light assembly incorporates LED position lights, while an LED tail light gives the compact tail end a modern and sporty look. As well as consuming less power, these low maintenance lights offer an extended service life.

ABS equipped as standard

For excellent stopping performance together with accurate feel through the brake lever, the MT-03 features a 298mm floating front disc with a 2-pot caliper – while the rear wheel is fitted with a 220mm disc and single pot caliper. With ABS equipped as standard, this lightweight and agile A2 license model can be used with confidence.

Multi-function instrumentation

The stylish multi function instrument panel features an easy to read display with an analogue tachometer on the left side with a digital speedometer on the right, next to the gear position indicator. The comprehensive display also includes a fuel gauge, water temperature gauge, clock and two tripmeters as well as an oil change indicator.

780mm seat height for easy ground access

The compact tubular frame is designed to give easy handling and high levels of control. To achieve good ground access the rider's seat has a moderate height of 780mm, while the passenger seat features aluminium grab bars for added convenience.

10 spoke aluminium wheels and 140 rear tyre

For an optimal balance of strength and rigidity the MT-03 is equipped with lightweight 10-spoke aluminium 17-inch wheels that keep unsprung weight low for enhanced suspension action together with light and agile handling. These wheels use a 110/70-17 front tyre and a 140/70-17 rear tyre.

Lightweight and compact frame

Manufactured from 35mm steel tubing and featuring widely spaced top rails, the MT-03's compact frame mounts the engine at four points to create a strong and lightweight structure. For good straight line stability the chassis uses a long asymmetrical 573mm long swingarm mounted directly to the Monocross shock.

Engine	
Engine type	Liquid-cooled; 4-stroke; DOHC; 4-valves
Displacement	321 cm ³
Bore x stroke	68.0 mm x 44.1 mm
Compression ratio	11.2 : 1
Lubrication system	Wet sump
Clutch Type	Wet; Multiple Disc
Ignition system	TCI
Starter system	Electric
Transmission system	Constant Mesh; 6-speed
Final transmission	Chain
Maximum power	30.9kW (42.0PS) @ 10750 rpm
Maximum Torque	29.6Nm 3.0kgf+m) @ 9000 rpm
Fuel consumption	3.81l/100km
CO2 emission	89g/km

Chassis	
Frame	Diamond
Front suspension system	Telescopic forks, Ø41.0 mm inner tube
Front travel	130 mm
Rear suspension system	Swingarm
Rear Travel	125 mm
Front brake	Hydraulic single disc, Ø298 mm
Rear brake	Hydraulic single disc, Ø220 mm
Front tyre	110/70-17M/C (54H) Tubeless
Rear tyre	140/70-17M/C (66H) Tubeless
Remark	EU4 compliant
Caster Angle	25°
Trail	95mm

Dimensions	
Overall length	2090 mm
Overall width	745 mm
Overall height	1035 mm
Seat height	780 mm
Wheel base	1380 mm
Minimum ground clearance	160 mm
Wet weight (including full oil and fuel tank)	168 kg
Fuel tank capacity	14L
Oil tank capacity	2.40L
