

Grizzly 350 4WD

Yamaha Utility ATVs

Yamaha Utility ATVs are built with one goal in mind: easing the workloads of those in tough outdoor environments.

This philosophy is engineered in every detail. Like torque-heavy engines that get you moving when terrain is tricky, or loads are heavy; effort-reducing technologies like automatic transmission and Electric Power Steering; and ergonomic designs which mean you'll still feel comfortable after a long day in the saddle. Plus, they run economically and require low maintenance.

Yamaha Utility ATVs are tireless workhorses - but that's not all they are. When time permits, these vehicles pack the punch to give riders a big dose of fun, too.

- 348cc air/oil-cooled 4-stroke engine
- Front and rear suspension package
- On-Command® 2WD/4WD drive
- Fully automatic Ultramatic® transmission
- Sealed drum brake
- 120 kg maximum load on cargo racks
- Fuel-efficient and low maintenance
- Towing capacity of 500kg
- Wide range of labour-saving accessories
- Homologated version for registration available

Grizzly 350 4WD

Yamaha Utility ATVs

Farmers and studmasters love this ATV. Ruling over the grasslands is what the Grizzly 350 4WD is built for. The robust engine with Ultramatic® transmission makes light work of steep hills and climbs.

Front and rear suspension keeps the ATV buoyant over rough terrain, and the On-Command® 2WD/4WD system allows you to easily switch between suitable driving modes. With rear and front racks the Grizzly 350 4WD also has the ability to carry loads up to 120kg. Economical with fuel, low in maintenance, it's the packhorse of the ATV world - strong, tough and durable.

And combined with a range of our practical accessories - from winches to ploughs - working was never so much fun.

Power and torque

Peak torque is generated at lower engine speeds. The availability of high torque at low rpm - for increased traction - is a feature of all Yamaha's 4-stroke ATV engines. Ultramatic® transmission automatically applies engine braking to the driven wheels, giving you confidence on steep, downhill gradients.

On-Command® drive system

Yamaha's push-button On-Command 2WD/4WD system lets you switch between drive modes, giving near-instantaneous transition from cruising to climbing.

Long-travel adjustable suspension

This type of suspension keeps a Yamaha ATV's tyres in consistent contact with the ground for longer - even when the terrain is uneven. Most Yamaha Utility ATVs have double A-Arm front suspension with preload-adjustability to optimise handling for different riders and cargo loads.

Parking brake

A convenient parking brake, situated on the left hand side of the handlebar, can be operated by one hand and makes sure your ATV stays where you left it.

Serious stopping-power

Large-diameter ventilated hydraulic front disc brakes and a fully-sealed rear drum provide sure stopping power in a variety of conditions.

Cargo racks

A wrinkle-finish front carry bar and cargo racks are super-durable and can pack an incredible payload - up to a total of 120 kg (40 kg front, 80 kg rear). Or hitch on a trailer and tow up to 500kg.

Engine

Engine type	Single cylinder;Air-cooled;4-stroke;SOHC;2-valves
Displacement	348cc
Bore x stroke	83.0 mm x 64.5 mm
Compression ratio	9.2 : 1
Lubrication system	Wet sump
Fuel system	Carburettor BSR33/1
Ignition system	DC-CDI
Starter system	Electric
Transmission system	Ultramatic® V-belt with front- and rear wheel engine braking;F/N/R
Drive system	On-Command® 2WD/4WD
Final transmission	Shaft

Chassis

Front suspension system	Independent double wishbone;5 position preload adjustment;160 mm stroke
Rear suspension system	Swingarm;5 position preload adjustment;180 mm stroke
Front brake	Dual hydraulic disc
Rear brake	Sealed drum
Front tyres	AT25x8-12
Rear tyres	AT25x10-12

Loading limits

Front rack	40kg
Rear rack	80kg

Dimensions

Overall length	1,984 mm
Overall width	1,085 mm
Overall height	1,120 mm
Seat height	827 mm
Wheelbase	1,233 mm
Minimum ground clearance	180 mm
Min. turning radius	3.0m
Fuel tank capacity	13.5litres
Oil tank capacity	3.1litres

Additional features

Steering system	Ackermann-type
-----------------	----------------

Grizzly 350 4WD

ATVs with engines up to 70cc are recommended for use only by riders 6 years and older and always with adult supervision. ATVs with engines of 70 to 90cc are recommended only for use by riders 12 years and older, and always under adult supervision. ATVs with engines of 90cc or greater are recommended for use only by riders 16 years and older. ATVs are built to operate within their design limits. Safe towable weights, together with maximum carrying capacity are identified in the owner's manual if applicable. For durability, reliability, but most important of all, operator safety, under no circumstances should the recommended capacities be exceeded. Yamaha recommends that all ATV riders take an approved training course. For safety and training information, see your dealer or call your Yamaha Distributor in your country. ATVs can be hazardous to operate. For your safety: always avoid paved surfaces. ATVs are designed for unpaved surfaces only. Riding on paved surfaces may seriously affect handling and control and can cause loss of control. Always wear a helmet, eye protection and protective clothing. Never carry any passengers. Never engage in stunt riding. Riding and alcohol/drugs don't mix. Avoid excessive speed and be particularly careful on difficult terrain. Please 'tread lightly': always ride in a responsible manner, respecting the environment as well as country and local laws. The riders in this brochure are professionals: don't attempt to emulate them. The specification and appearance of Yamaha products will be varied from time to time without notice, and as shown here are illustrative only and are not a contractual description of products. Some models are shown with optional accessories. All ATVs come with a 12-month Limited Factory Warranty, except for Banshee, which carries a 90-day Limited Factory Warranty. See your dealer for details.
