

Whenever, wherever the snow falls, team up with your Yamaha

Being out on the trails or powder is one of life's great feelings, even when you're out there working. So enjoy our snowmobiles. Each one is designed and equipped to deliver supreme handling, performance, comfort, economy and reliability.

It's a winning combination you can depend on from your Yamaha – whether for work or play – along with totally dependable design and engineering that brings you and your machine closer together as a unit – to create a more rewarding riding experience than ever before.

So wherever you ride – on smooth or rough trails, soft powder or up at high altitudes – choose the perfect partner. Your Yamaha.

- Double wishbone front suspension
- Push-button Electric Start and Reverse
- Dual stage fuel injection for power and economy
- Lightweight and reliable 599cc 2-stroke engine
- Yamaha Mountain skis - wide and stable
- Long & powerful 154" Camso® track with 2.25" lugs
- Lockable flip-up suspension rails
- Large protective windshield with integral mirrors
- Multi-function gauge with information panel
- Large cargo deck and tough, sturdy rack
- Solid and sturdy-feeling one-piece tunnel

Lightweight and powerful 599cc 2-stroke engine

This lively twin cylinder, 2-stroke engine has proved itself over thousands of miles and years of faithful service. The dual fuel Injection and digital ignition systems maintain the best fuel/air mix to keep the engine at peak performance, providing reliable power to haul you through the deepest snow and get you home.

Double wishbone front suspension

The uniquely wide A-arm spacing complements the chassis design, allowing us to develop a really tight suspension set-up. The IFP high-pressure gas shocks feature a hard anodised aluminium body with a 0.5" shaft and an internal aluminium floating piston, along with high quality seals and ice scrapers and a forged shaft-end eyelet.

Camso® 154" track with 2.25" lugs

Across the industry, Camso® tracks are widely acclaimed for their grip, acceleration, cornering and all-round capability. The Camso® 154" track on the Transporter, with its 2.25" lugs provides optimum traction - particularly valuable when exploring deep snow - and great grip for tight manoeuvring.

Dual torsion spring rear suspension with flip-up

The pre-loading of the torsion springs is easily adjustable to cater for different loads, while the convenient flip-up rail section makes it easier to climb out of deep snow. Once locked up, the straight rail suspension greatly increases the traction, speed and stability on flat snow or the trails.

Spacious rear deck and sturdy cargo rack

The spacious rear deck and tough, integrated cargo rack are really attractive features of the Transporter. This practical design means you can carry skis, snowboards or fishing gear at the weekend - and tools, equipment and other gear on days when you're working. Pulling a sledge is a breeze thanks to the strong integrated towbar.

New 200 mm Yamaha skis -wide and stable

These wide Yamaha Mountain skis have earned a great reputation on board our popular VK10 machine, where they really contribute to its awesome deep powder performance and stability. Now the Transporter uses this ski design to offer outstanding deep snow grip - and the ability to glide over fresh powder or hard pack with equal ease.

Engine

Type / Displacement	2 Stroke / 599cc
Cylinders	2-Cylinder
Cooling	liquid-cooled
Bore x stroke	73.8 mm x 70.0 mm
Carburation	Electronic Injection
Intake design	Dual Stage injection
Ignition system	Digitally Controlled CDI
Exhaust	APV with tuned pipe
Clutch / transmission	Team Rapid / Reverse push Button Engine
Disc brake system	Race radial master cylinder hydraulic brake

Suspension

Front suspension system	SRV
Front shocks	IFP 1.5
Front travel	241 mm
Rear suspension system	Dual Shock SR 154 Torsion
Rear shocks	IFP 1.5 / IFP 1.5
Rear Travel	343 mm

Measures / Dimensions

Overall height	1,219 mm
Overall length	3,400 mm
Overall width	1,150 mm
Track W x L x H	15 inch x 154 inch x 2.25 inch
Track W x L x H	381 mm x 3,912 mm x 57 mm
Track Type	Camso®
Ski stance (ctr. to ctr.)	901.7 -1,054 mm
Fuel tank capacity	51.9 litres

Features

Electric start	Standard
Reverse	Standard
Hand & thumb warmers	Standard
Headlight watts, type	60/55W Halogen
DC output	N/A

Snowmobiles are built to operate within their design limits. For durability, reliability, but most important of all, operator safety, under no circumstances should the recommended capacities identified in the owner's manual be exceeded. Consult your snowmobile dealer when selecting a snowmobile for your particular needs. Always wear a helmet, eye protection and protective clothing. Always ride responsibly and within your limitations, respecting the environment as well as country and local laws. The riders depicted are professionals: don't attempt to emulate them. The specifications, measurements and appearance of Yamaha products will be varied from time to time without notice, and as shown here are illustrative only and are not a contractual description of products. Some models are shown with optional accessories.
