

The inflatable that's with you all the way.

Jump into a YAM and join the thousands of happy owners cruising round the ports, marinas and inland waters of Europe. Renowned for their simple, stylish designs, ease of use and refreshing value for money, Yam inflatables help people get out on the water more easily – and have more fun.

All YAM models share the Yamaha reputation for proven reliability - and durability that's really long-lasting. The special hulls and keels ensure practicality, agility and performance while offering a comfortable, secure ride.

Just add a Yamaha outboard, with its all-weather reliability and world class performance – for an unbeatable package.

- Tough aluminium floor (bow panel waterproof multiplex)
- Tough, all-round rubbing strips
- Ideally suited for water sports and towing toys
- Serious utility craft for tougher jobs
- Very easy to control and manoeuvre
- Special tube shape offers lots of interior space

Truly Sports-minded inflatables

For maximum fun afloat, there's nothing like a YAM Sport. Ideal for camping trips, water sports, family holidays, lake cruises or just exploring the coastline.

Because these tough, sporty inflatables are also smart and stylish, they're a great choice as the tender to a larger boat, whether sailing yacht or power cruiser. From the smallest 275S up to the highly capable 380S, these boats handle easily and are designed for more serious work too.

So if you're looking for a boat that's easy to manoeuvre and will tackle family adventures with ease – towing donuts and other toys – yet be equally at home as a stable fishing, diving or work boat, then a YAM Sport is made for you.

Perfect partners

Yamaha outboards are renowned for their turnkey reliability and YAM inflatables are designed to be the perfect match, from the unique underwater profile to the optimised angle and height of the transom. With a huge range of Yamaha outboards to choose from, it's easy to find the perfect combination of engine and inflatable.

PVC-covered reinforced transom

Showing our dedication to quality, we have covered our transom with black PVC. This makes the transom even more resistant to wear and tear and to UV-light, increasing its durability. Of course, the transom is specially designed and tested for a Yamaha outboard engine.

Built to take care of you

In addition to safety features like strong, secure grab-handles, seat patches, D-rings, lifting eyes and other fittings, comfort is also a top priority. The dedicated storage straps for the oars are a perfect example – different from many other inflatables, YAM boats have the oars stored neatly out of the way so you can sit comfortably on top of the hull.

Safe & Secure

The YAM S-Series boats come with a strong strap to secure the fuel tank to the aluminium floor – Out of the way and providing extra safety for the people on board.

Built to last

For maximum strength and good looks, all YAM inflatables are constructed using the latest generation PVC material, with most seams and joints hot-bonded for optimum water tightness and safety. The result is a smart, clean exterior surface that is highly resistant to abrasion, salt water and sunlight.

V-shaped hull configuration

All YAM Sport models use a stable V-hull configuration, providing not only great rigidity and superb directional control at speed, but also precise handling at slow speed. Tough, scratch-resistant rigid floors are a standard fitting – as well as a range of other practical features, such as strong lifting eyes.

Inflatable specifications	
Overall length	2.70 m
Beam	1.52 m
Max. Persons	3 + 1 (adults + child)
Max Engine Power	7.4 kW / 10 hp
Floor material/type	Aluminium
No of air chambers	3 + 1 (keel)
Stowed Dimensions	112 x 58 x 33 cm
Hull weight	44.2 kg
Max load capacity	480 kg
Max Tube Diameter	42.5 cm
Shaft Length	Short
