

## Enter in a world of fun.

Want to take a first leap in the watersports and get the excitement and thrill of the waves without taking a single step back from relax and comfort? - go for the EX Limited. It is of course fully equipped with all the agility and user-friendly handling you would expect from your Yamaha.

Our WaveRunners are built with pure Yamaha DNA of quality, technological innovation and passion to excite. From the revolutionary RiDE system and lightweight NanoXcel2® hulls – to our exclusive electronic control systems – to the top of the range supercharged 4-stroke 1812cc engine in our most powerful model – your smile is what we work for.

Attention to detail, advanced design and sheer build quality add even more to the package, so the result is a guarantee of outstanding performance and thrill, together with the all-important rider comfort that's so welcome aboard a premium model like this EX Limited!

- Tough, light hull design - Axial Flow jet pump
- Precision-sewn 2-colour seat - 3 people in comfort
- Clear and informative multi-function LED meters
- Speedo and Tacho + Fuel level and Hours Run
- Stylish colours and attractive modern graphics
- Glove Box, plus in-bow and under-seat storage
- Large 50L fuel capacity - so the fun lasts longer
- Convenient and comfortable re-boarding handle
- Powerful Yamaha TR-1 engine - 3-cyl 1049cc
- Revolutionary Ride® system - intuitive control

## Enter in a world of fun.

Created for those who want to take a first leap in the watersports and get the excitement and thrill of the waves without letting go of all the family relax and comfort, the EX Limited is joy unlimited. It is of course fully equipped with the agility and user-friendly handling you would expect from your Yamaha.

The EX Series has been designed with all the reliability and technical innovation for which our WaveRunners are widely known, but with a rare no-frills approach for efficient and accessible fun.

The exclusive RiDE® technology, our simple-to-use and intuitive control system which genuinely transformed the riding experience of the category, has brought increased enjoyment to countless WaveRunner riders around the world and is at the core of EX Limited's guaranteed performance.

## Powerful TR-1 engine - 3 cyl 1049cc

Despite its surprising affordability, the exciting EX Limited is powered by the latest version of our innovative 3-cylinder engine, the 1049cc Yamaha TR-1. It's a compact, lightweight unit that packs real punch - with lively acceleration and great top-end power, plus the legendary economy and reliability you expect from a Yamaha.

## Designed for all-round handling and performance

The smooth, quiet power, compact dimensions and light weight of the TR-1 engine, matched with the tough, durable and well-proven hull design, delivers a great mix of user-friendly handling, with unusual agility and balance. The result is maximum fun and control with minimum difficulty, even for less experienced drivers.

## RiDE system (Reverse with Intuitive Deceleration Electronics)

The revolutionary RiDE® system transforms control, bringing confidence to riders at every level. Simply pull the lever on the right hand-grip to move forward and accelerate - pull the lever on the left grip to slow down or reverse. Yes, and with the bonus of Reverse Traction Control it really is that simple!

## Comfortable seating for up to 3 people

The ergonomically designed, 2-colour, precision-sewn seat, is a very secure and comfortable place to be - perfect for solo riding or cruising with up to 3 people. Its high comfort level will make you feel it's been custom-made to fit you. What's more, there's a very handy dry storage area underneath it.

## Large 50 Litre fuel capacity - for more fun time

When you blast out on the EX Limited, you probably won't want to come back too soon, so we've built in a tank with a larger fuel capacity (50 Litres) than any competitive watercraft. Which means your fun out on the water can last even longer - and you can cruise even further. Thoughtful - and typically Yamaha.

## Multi-function LCD instruments

Great-looking multi-function LCD instruments mounted in a stylish cockpit panel are not something you might expect on such a keenly priced, affordable watercraft - but you'll find them on the EX Limited. It offers clear, easy-to-read Speedometer and Tachometer displays, as well as informative readouts for Fuel Level and Hours Run.

## Engine

Engine type	3-Cylinder; TR-1; 4-stroke; DOHC; 4-valves
Supercharger	-
Displacement	1,049cc
