

Perfect for new riders.

They're only young once, so you naturally want the very best for your child. And when you take a closer look at the Yamaha PW50 you'll see that this high quality mini motorcycle comes with plenty of user-friendly features and uncomplicated technology that has made it the favourite choice of many parents all around the world for the last 40 years.

Simplicity is the key, and everything about the PW50 is designed to make it fun to ride and easy to own. The fully automatic transmission gives 'twist-and-go' performance to this 2-stroke 50cc and its handlebar-mounted brake levers – as well as a shaft drive and a low seat – make it the ideal first bike for every child.

- Fully-automatic 50cc 2-stroke engine
- Easy-to-adjust throttle limiter
- Low seat height and user-friendly controls
- Lightweight handling and compact dimensions
- Easy to own, simple to maintain
- Separate 2-stroke oil tank
- Strong 3-spoke steel wheels
- Light and strong motocross-style bodywork
- Yamaha design, quality and reliability
- High-level exhaust with heat shield

With many kids spending a lot of time playing inside on electronic devices, the Yamaha PW50 is the ideal way to encourage them to get involved in a physical outdoor activity and to build skills and confidence! Share the PW50 from brothers to sisters through time and start creating some great memories and family fun!

Start making memories now!

So much more than a kids' fun bike! For the last 40 years the much-loved PW50 mini motorcycle has introduced children and their parents to the joy and excitement that comes with riding off road. And along the way this little Yamaha has helped to make some fantastic family memories that will last a lifetime.

Everything about this legendary kids' bike is designed to make riding safe, easy and enjoyable. There's a throttle limiter that lets you adjust the top speed, and the PW50's compact chassis with plush suspension and low seat height ensure a comfortable ride with lightweight handling.

The zippy, fully-automatic 50cc engine delivers smooth acceleration, and the shaft drive and separate 2-stroke oil tank mean it's simple to maintain. Designed to fit into the back of car or small van, the lightweight PW50 is also easy to transport – and with its Yamaha build quality this premium kids' bike will give years of family fun!

Fully-automatic 50cc 2-stroke engine

The PW50's lightweight 50cc 2-stroke air-cooled engine is designed specifically to suit the needs of new riders. Smooth and responsive, the fully-automatic gearbox makes for rider-friendly 'twist-and-go' performance – and its uncomplicated technology makes this lightweight mini-bike easy to maintain.

Easy-to-adjust throttle limiter

To make sure that parents have total control over the PW50's performance there's a simple throttle limiter mechanism. By adjusting a screw you can reduce or increase throttle movement to suit the rider's experience and ability.

Low seat height and user-friendly controls

With its low seat height of only 475 mm and a comfortable and relaxed riding position, new riders will feel instantly at home on the PW50. The handlebar layout is similar to a bicycle's, with the back brake operated by the left hand and front brake by the right – making it easy for the youngest beginners. Just twist the throttle and the fun begins!

Lightweight handling and compact dimensions

Weighing just 41kg, the PW50 is the lightest and most compact mini-bike in the Yamaha range. Equipped with 2.50-10 tyres at the front and rear and with 60mm front suspension travel and 50mm rear travel, the compact chassis delivers easy and agile handling – making it the ideal introduction to off road motorcycling.

Easy to own, simple to maintain

Just about every feature has been designed to make the PW50 fun to ride, easy to own and simple to maintain. The fully-enclosed shaft drive system is clean and quiet, which – together with its separate 2-stroke oil tank and low maintenance design – makes this legendary little motorcycle the obvious choice for new riders and their parents.

Separate 2-stroke oil tank

To make ownership easy and limited mechanical needed, the PW50 features a separate 2-stroke oil tank mounted behind the front number plate that carries 350cc of lubricant – enough for multiple tanks of fuel. Its see-through plastic body makes it easy to keep an eye on the level, and this system means that you can use 'straight' non-premix fuel in the petrol tank.

Engine

Engine type	Air-cooled; 2-stroke; Forward-inclined single cylinder; Reed valve
Displacement	49cc
Bore x stroke	40.0 mm x 39.2 mm
Compression ratio	6.0 : 1
Lubrication system	Separate lubrication
