

Wolverine® RMAX™2 1000 SE

Ultimate terrain conqueror.

The new Wolverine®RMAX™2 1000 line-up heralds a new generation of adrenaline-charged, 2 and 4-seater SxS models, ready for you to tackle new adventures. It's an advance made possible by our unique heritage in competition - and by the world-renowned engineering expertise that is evident from the moment you step aboard.

In fact, the track record established by such sporting success, alongside the proven excellence of the versatile machines in our wide ROV line-up, has helped us transform the SxS scene. First with the YXZ1000R series - and now with yet another benchmark – this time set by the new Wolverine® RMAX™ 1000 family.

After extensive testing and trials in every condition imaginable, a new level of all-terrain performance and comfort is born. The advanced transmission and suspension design create the maximum connection between driver and machine – for a one-to-one relationship that has not been possible before.

- All-new industry-leading Yamaha leisure ROV
- A gentle giant - powerful and smooth 999cc twin
- Impressive size but a good 'fit' when off-road
- Extensive and impressive Special Edition package
- Outstanding interior comfort and control facilities
- Unique 3-position D-Mode (Drive Mode) control
- Tough and Grippy 30" Maxxis Carnivore tyres.
- Excellent mud and splash protection for occupants
- Fox® QS3 shock package – easy no-tool adjustment
- Premium bumper with 4500 lbs WARN VRX winch
- 'Stealth' front design - "Evil Eye" LED marker lights

Wolverine® RMAX™2 1000 SE

Reimagine everything.

This Special Edition version of the all-new Wolverine® RMAX™2 1000 is ready to exceed your expectations with its powerful 999cc engine, unique D-Mode feature with Sport, Trail, and Crawl modes, Yamaha's exclusive Ultramatic® transmission, factory-installed WARN winch and aggressive Maxxis Carnivore tyres.

Yamaha's long experience and knowledge of creating machines with a wide range of capabilities has influenced our development teams to create a striking new Special Edition model of our next-generation off-road adventurer. #DRIVENBYFREEDOM – this brand new SxS knows how to deliver and surprise to the max.

The Wolverine® RMAX™2 1000 Special Edition follows our development philosophy of "Jin-Ki Kanno" – which translates from the Japanese as "the true exhilaration of being one with the machine". The result is a super-capable off-roader, in which both driver and passenger feel confident to master the very toughest terrain.

Wolverine® RMAX™ 2 1000 SE

Powerful new 999cc parallel twin engine

The stunning power of the new 999cc, DOHC, 8-valve, parallel twin-cylinder engine delivers class-leading, ultra-smooth performance across the power band - and with the red line at 8,500 rpm, aggressive and spirited riding is what this machine is all about. For complete peace of mind, our legendary durability and reliability is the hallmark of every Yamaha engine.

Imposing and aggressive SE styling

The unique character of this SE model shines through, blending next-level capability with an imposing appearance, thanks to its special colour scheme, aggressive front-end design and rugged tyres. The stealthy front LED headlights and "evil eye" marker lights add more to its distinctive looks, while the LED tail, brake and reverse lights provide excellent visibility.

Advanced, comfort-focused suspension

The all-new heavy-duty suspension is designed to provide a great handling blend: maximum articulation in low-speed situations - a balanced feel when trail riding - and maximum bottoming resistance with a higher-speed damping feel when manoeuvring aggressively. The wide-arc A-arms paired with easily adjustable front and rear FOX shocks help create this ideal set-up.

3 drive modes - 1 ultra-versatile machine

Yamaha's Chip Controlled Throttle (YCC-T) works with our Ultramatic® transmission and On-Command systems to give perfect power delivery in any situation, via its new 3-position D-Mode (Drive Mode) control. Choose Sports Mode for wide spaces and spirited driving - Trail Mode for a fun, relaxed ride - or Crawl Mode for slow-speed technical tasks like rock crawling.

Stylish and helpful interior lighting

Driving in low light conditions is a real pleasure in the all-new Special Edition model, which features a sophisticated interior package with floor and console lighting, easy-to-locate blue LED-lit switch controls and instruments that are also back-lit in blue. This premium-level design approach adds to the attractive ambience of the automotive-quality cockpit.

Born to tackle extreme terrain

Many special features deliver this machine's incredible all-terrain ability - the 3-position D-Mode control and our Ultramatic® and On-Command systems give the perfect balance of engine braking and power delivery, the frame is strengthened for a solid and durable feel - and the chassis is matched to the high-spec suspension, so together they provide maximum rigidity.

Wolverine® RMAX™ 2 1000 SE

Engine

Engine type	Liquid-cooled; 4-stroke; DOHC; Parallel Twin
Displacement	999cc
Bore x stroke	93.0 mm x 73,5 mm
Compression ratio	11.2 : 1
Ignition system	TCI
Lubrication system	Dry sump
Starter system	Electric
Transmission system	Yamaha Ultramatic® CVT automatic V-belt
Drive system	On-Command® 2WD, 4WD, 4WD with Diff-lock
Final transmission	Shaft
Fuel system	Mikuni fuel injection with dual 48mm throttle bodies plus YCC-T and D-mode

Chassis

Front suspension system	Independent Double Wishbone with Anti-Sway Bar, 361 mm of wheel travel /FOX QS3 piggy back
Rear suspension system	Independent Double Wishbone with Anti-Sway Bar, 429 mm of wheel travel /FOX QS3 piggy back
Front brake	Dual ventilated hydraulic disc
Rear brake	Dual ventilated hydraulic disc; Shaft mounted parking brake
Front tyres	30 x 10.00R-14 Maxxis® Carnivore™
Rear tyres	30 x 10.00R-14 Maxxis® Carnivore™

Loading limits

Cargo bed	272 kg
-----------	--------

Wolverine® RMAX™ 2 1000 SE

Dimensions

Overall length	3,030 mm
Overall width	1,680 mm
Overall height	1,975 mm
Seat height	872 mm
Wheelbase	2,202 mm
Minimum ground clearance	350 mm
Wet weight (including full oil and fuel tank)	930 kg
Fuel tank capacity	35 L
Oil tank capacity	5,5 L
Min. turning radius	6 m

Additional feature

Steering System	Rack and Pinion Steering Assembly with Electric Power Steering
Towing capacity	907 kg
Instrumentation	Digital information system

Wolverine® RMAX™2 1000 SE

ATVs with engines up to 50cc are recommended for use only by riders 6 years and older and always with adult supervision. ATVs with engines of 70 to 90cc are recommended only for use by riders 12 years and older, and always under adult supervision. ATVs with engines of 90cc or greater are recommended for use only by riders 16 years and older. Our Side-by-Side Vehicles are recommended for use only by riders of 16 years and older. ATVs and Side-by-Side Vehicles are built to operate within their design limits. Safe towable weights, together with maximum carrying capacity are identified in the owner's manual if applicable. For durability, reliability, but most important of all, operator and passenger (for Side-by-Side Vehicle only) safety, under no circumstances should the recommended capacities be exceeded. ATVs can be hazardous to operate. For your safety: always avoid paved surfaces. ATVs and Side-by-Side Vehicles are designed for unpaved surfaces only. Riding on paved surfaces may seriously affect handling and control and can cause loss of control. Always wear a helmet, eye protection, and protective clothing. Never carry any passengers on ATVs and always wear a seatbelt when riding a Side-by-Side Vehicle. Never engage stunt riding. Riding and alcohol/drugs don't mix. Avoid excessive speed. And be particularly careful on difficult terrain. Please 'tread lightly': always ride in a responsible manner, respecting the environment as well as country and local laws. Yamaha recommends that all ATV and Side-by-Side Vehicle riders take an approved training course. For safety and training information, see your dealer or call your Yamaha Distributor in your country. The specification and appearance of Yamaha products will be varied from time to time without notice, and those shown here are for illustrative purposes only and are not contractual descriptions of products. Some models are shown with optional accessories. The riders in this brochure are professionals: don't attempt to emulate them. All ATVs and Side-by-Side Vehicles come with a 12-month Limited Factory Warranty. See your dealer for details.
