

# Wolverine® RMAX™ 4 1000

## Max power meets max comfort.

The new Wolverine® RMAX™ 1000 line-up heralds a new generation of adrenaline-charged, 2 and 4-seater SxS models, ready for you to tackle new adventures. It's an advance made possible by our unique heritage in competition - and by the world-renowned engineering expertise that is evident from the moment you step aboard.

In fact, the track record established by such sporting success, alongside the proven excellence of the versatile machines in our wide ROV line-up, has helped us transform the SxS scene. First with the YXZ1000R series - and now with yet another benchmark – this time set by the new Wolverine® RMAX™ 1000 family.

After extensive testing and trials in every condition imaginable, a new level of all-terrain performance and comfort is born. The advanced transmission and suspension design create the maximum connection between driver and machine – for a one-to-one relationship that has not been possible before.

- All new industry-leading Yamaha 4-seater leisure ROV
- A gentle giant - powerful and smooth 999cc twin
- Impressive size but a good 'fit' when off-road
- Outstanding interior comfort and operation control
- Tough off-road GBC 30" Dirt Commander tyres
- Excellent mud and splash protection for occupants
- Fox® QS3 shock package – easy no-tool adjustment
- Rugged front bumper with towing eyes & winch mount
- 'Stealth' front design - "Evil Eye" LED marker lights
- Exclusive driveline with Ultramatic® transmission
- T-category homologation options are offered by Yamaha; verify details with your local Dealer.

## Reimagine everything.

Share your adventures in the comfort of a class-leading, automotive-inspired cabin with full 4-seat versatility. The unmatched power of Yamaha's all-new 999cc parallel twin engine is partnered by great handling and adjustable suspension, so you can go off-road exploring in real style.

The Wolverine® RMAX™4 1000 offers unprecedented style and comfort, but also expands your horizons, enabling you to take friends and family out for an exhilarating day of all-terrain adventures. New experiences will be easier to find too, thanks to the amazing new on-board features and sophisticated control systems.

The Wolverine® RMAX™ 1000 family follows our development philosophy of "Jin-Ki Kanno" – which translates from Japanese as "the true exhilaration of being one with the machine" – to bring you a super-capable off-roader, in which driver and passengers feel confident to master the very toughest terrain.

## Four seats plus cargo

This is one of the most versatile machines in its class. It seats 1 - 4 adults plus cargo and features an ingenious extra storage ability. By folding and sliding the rear seats forward, the rear area can then securely transport up to 272 kgs with its multiple steel tie-down points. A built in 2-inch receiver is also fitted and ready to tow a full 907 kg load.

## New and powerful 999cc 2-cylinder Engine

The stunning power of the new 999cc, DOHC, 8-valve, parallel twin-cylinder engine delivers class-leading, ultra-smooth performance across the power band - and with the red line at 8,500 rpm, aggressive and spirited riding is what this machine is all about. For complete peace of mind, our legendary durability and reliability is the hallmark of every Yamaha engine.

## Imposing and aggressive styling

The Wolverine® RMAX™4 1000 blends next-level capability with an imposing appearance, thanks to its eye-catching colours, aggressive front-end design and rugged Dirt Commander tyres. The all-new stealthy front LED headlights and "evil eye" marker lights add even more to its distinctive looks, while the LED taillight, brake light, and reverse light provide added visibility.

## Advanced, Comfort-Focused Suspension

The all-new heavy-duty suspension is designed to provide a great handling blend: maximum articulation in low-speed situations - a balanced feel when trail riding - and maximum bottoming resistance with a higher-speed damping feel when manoeuvring aggressively. The wide-arc A-arms paired with easily adjustable FOX shocks provide the perfect front and rear combination.

## Roomy 4-person cabin

The premium quality, automotive-inspired cabin design of the new Wolverine® RMAX™4 1000 offers comfortable, secure seating for four full-sized adults with comfortable handholds and six-position seat belts for each seat. The second row is raised for excellent visibility, so everyone gets a great ride and a good view of their surroundings.

## Tyres designed for the toughest terrain

The chunky 14" aluminum wheels are shod with 30" GBC Dirt Commander 2 tyres arranged in a "square" set-up so you only need to carry a single spare. These special radial tyres are developed specifically for the Wolverine® RMAX™ 1000 to provide precise steering character and comfortable yet durable sidewall feel. The tread pattern design provides great traction, whatever the terrain.
