

The stylish all-rounder.

Whether for touring relaxation or sporty thrill, the amazing FX HO simply delivers. On the lookout for a WaverRunner designed to maximise the riding pleasure? - you will love this machine, whether alone, with family or friends!

From our unique, revolutionary RiDE® system and lightweight hulls – to our exclusive electronic control systems – to the top range supercharged 4-stroke 1,812cc engine in our most powerful model - the innovative technology and engineering integral to every Yamaha is right at the cutting edge.

Advanced design and sheer build quality add even more to the package, so the result is a guarantee of excellent performance and thrill, together with the all-important rider comfort, required for a Cruiser!

- Large 5" LCD colour touch screen
- Smartphone synchronisation capability
- GPS chart plotter ready
- Easy access glovebox
- New ride plate & updated sponson position
- Improve ergonomics & Operation switch box
- High Output, 1812cc engine
- Longest, most comfortable hull in the range
- Unique 4-step tilt-adjustable steering system
- Revolutionary RiDE system

The stylish all-rounder.

Whether for touring relaxation or sporty thrill, the amazing FX HO simply delivers. On the lookout for a craft that can offer the perfect blend of performance and comfort, along with a range of features designed to maximise the riding pleasure? - you will love this machine.

The remarkable 1,812cc engine, with its high-pressure fuel pump and intelligent electronic throttle control system, delivers smooth, powerful, efficient performance. The elegant hull, combined with the remarkable RiDE® system, promises the most comfortable, stable handling you've ever experienced.

The FX HO is a true all-rounder, with features like No Wake mode and Cruise Assist, luxury seating for three, a large, stable swim platform, an extra deep re-boarding step, dual grab handles, plenty of storage space that guarantee top-notch experience alone, with your partner, family and friends.

High Output, DOHC, 16V, 1,812cc engine

Power delivery from the large displacement, High Output 1812cc engine is exhilarating – and the Hyper-Flow jet pump with its 3-blade impeller helps turn that power into electrifying acceleration. The Electronic Fuel Injection (EFI) gives the smoothest possible power output and efficient, economical running, even on regular unleaded fuel.

Aerodynamic shape

The capable hull of this FX model cuts through the water, providing stability on any trip. Impressively rigid and strong, it gives these machines awesome on-water performance with stunning acceleration, high top speed, great economy - and an even more comfortable ride.

RiDE® system (Reverse with intuitive Deceleration Electronics)

The revolutionary RiDE system transforms your riding pleasure, bringing a feeling of confidence to every rider... at every level. Simply pull the throttle lever on the right hand-grip to move forward and accelerate - pull the lever on the left grip to slow down or to reverse. Yes, it's really that simple!

Complete control, minimal effort

Our sophisticated Electronic control system will delight you with its 'intelligent' features. Use Cruise-Assist to set and maintain exact speeds, the 3-position No Wake Mode to navigate through low-speed areas - and electronic Reverse-assist and TDE (Thrust Directional Enhancement) for ultra-low speed manoeuvring and docking.

Drive Control system

This latest generation of our well known 'L-mode' system allows you to not only pre-set a top-speed limit, but also an acceleration curve, making it the perfect partner when you're towing tubes or wakeboards. You can also lock in lower speed settings for novice riders - and set a steady speed on longer trips, in order to achieve maximum economy.

Luxury, comfort, footwell drainage - and easier re-boarding

From 4-step, tilt-adjustable steering to a luxury 3-person cruiser seat – and from practical pull-up cleats to a large swim platform with a deeper, wider, softer, more comfortable step and dual handles for re-boarding – this FX Cruiser really does have it all. Plus an industry-first footwell drainage system.
