

Expand your horizons.

Take a real leap forwards in cruising luxury and style. The perfect equilibrium of power, smooth-riding and design for comfort is characteristic of the FX Cruiser. The model represents Yamaha's world-leading reputation for reliability and performance earned over many years.

From our unique, revolutionary RiDE® system and lightweight materials – to our exclusive electronic control systems – to the top-of-the-range, supercharged, four-stroke 1,812cc engine in our most powerful model – the innovative technology and engineering integral to every Yamaha is right at the cutting edge.

Attention to detail and sheer build quality add even more to the package, and the result is guaranteed excellent performance and thrill, together with the all-important rider comfort, required for a Cruiser.

- Large 5" LCD colour touchscreen
- Smartphone synchronisation capability
- GPS chart plotter ready
- Easy access glove box
- New ride plate and updated sponson position
- Improve ergonomics and operation switch box
- Audio integrated with control via display
- High Output, 1,812cc engine
- Luxurious two-piece, three-person tiered seat
- Longest, most comfortable hull in the range
- Revolutionary RiDE system

Expand your horizons.

The outstanding FX Cruiser HO offers yet another leap in luxury and performance. With a perfect blend of design and engineering refinements to make your days on the water even more relaxed and enjoyable, alone or with company, this model will widen your riding horizons.

Feel the power of the 1,812cc HO engine. Explore the agile, sure-footed handling of the sleek hull design, coupled with the revolutionary level of intuitive control offered by our exclusive RiDE® system and the all-electronic monitoring and control systems. There'll be no going back.

Your journey of discovery continues as you explore the remarkable electronic throttle and trim systems, Reverse Traction Control, security mode and a host of other features: extended stern platform, adjustable steering, three-person Cruiser seat, pull-up cleats... in short, a world of pleasure.

High Output, DOHC, 16V, 1,812cc engine

Power delivery from the large displacement, High Output 1812cc engine is exhilarating – and the Hyper-Flow jet pump with its three-blade impeller helps turn that power into electrifying acceleration. The Electronic Fuel Injection (EFI) gives the smoothest possible power output and efficient, economical running, even on regular unleaded fuel.

Aerodynamic Shape

The capable hull of this FX model cuts through the water, providing stability on any offshore adventure. Impressively rigid and strong, it gives these machines awesome on-water performance with stunning acceleration, higher top speed, greater economy – and an even more comfortable ride.

RiDE® system (Reverse with intuitive Deceleration Electronics)

The revolutionary RiDE system transforms your riding pleasure, bringing a feeling of confidence to every rider... at every level. Simply pull the throttle lever on the right hand-grip to move forwards and accelerate. Pull the lever on the left hand-grip to slow down or to reverse. Yes, it's really that simple.

Complete control, minimal effort

Our sophisticated Electronic control system will delight you with its "intelligent" features. Use Cruise-Assist to set and maintain exact speeds, the three-position No Wake Mode to navigate through low-speed areas – and electronic Reverse-assist and TDE (Thrust Directional Enhancement) for ultra-low speed manoeuvring and docking.

Industry-first colour touchscreen display

Clear display of F-N-R, speed, trim and RiDE system status, with diagnostic information and control of all the electronic systems, are features of this stylish, 5" colour touchscreen, CONNEXT. It is also fully customisable – from screen colour and layout to choice of the function being controlled or displayed.

Luxury, comfort, footwell drainage – and easier re-boarding

From four-step, tilt-adjustable steering to a luxury three-person cruiser seat – and from practical pull-up cleats to a large swim platform with a deeper, wider, softer, more comfortable step and dual handles for re-boarding – this FX Cruiser really does have it all. Plus an industry-first footwell drainage system.

Engine

Engine type	4-cylinder; 1.8 Liter High Output; 4-stroke
Supercharger	No
Displacement	1,812cc
Bore x stroke	86 mm × 78 mm
Compression ratio	11.0 : 1
Pump type	155 mm axial flow
Fuel	Unleaded Regular Gasoline
Fuel supply system	Electronic Fuel Injection
Fuel capacity	70 litres
Lubrication system	Wet sump
Oil capacity	5.3 litres

Dimensions

Length	3.58 m
Width	1.27 m
Height	1.23 m
Dry weight	382 kg

Features

Storage capacity	168.3 litres
Rider capacity	1-3 people
