

Pilote professionnel dans un environnement fermé

Free your spirit

Feel at one with the waves. The JetBlaster® has been built with excitement at its core. Racy looks, nimble handling with RiDE® control technology and strong power-to-weight performance make it the perfect partner for serious fun.

Excellence in engineering and great build quality define every Yamaha WaveRunner and the JetBlaster® is no exception. From the advanced materials like the NanoXcel2 hull to the award-winning engine, you've got a machine made for adventure.

The JetBlaster® has a range of features that make it ideal for freestyle riding. From stabilising foot chocks to an ergonomic handlebar and round grip handle, it's designed to help you do more, more easily, even for less experienced riders.

- Foot chokes support advanced moves
- Electric trim for on-the-go adjustment
- NanoXcel2® hull and body – super-strong and super-light
- Wide, curved handle bar for unique riding style
- Round grip provides greater connected feeling with the WaveRunner
- Small, compact switch box

Free your spirit

The JetBlaster® is pure fun personified. With graffiti-inspired styling, a top-quality engine and a great power to weight ratio, adrenaline seekers are guaranteed exciting agility and user-friendly handling to quickly conquer the waves.

Our new JetBlaster® is ready for fun and exciting riding, with foot chocks enabling near-instant mastery of tricks, flicks and stunts; a handlebar that's purpose-built for slick moves and new, enhanced electric trim for easy control and instant gratification.

We've crafted the JetBlaster's high-quality hull and deck from NanoXcel2®, making it strong and lightweight. Fuse this with a TR-1® High output engine and you get some serious thrill-seeking potential, due to the power to weight ratio.

A modern classic

Own a modern classic, with heritage Yamaha styling, distinctive and edgy design, advanced engineering and uncompromising build quality. The JetBlaster® looks as good as it feels to ride

TR-1® High Output – 1,049cc, three-cylinder engine

The JetBlaster® is powered by our innovative three-cylinder engine, the 1049cc High Output TR-1. This remarkably compact and lightweight unit packs a real punch, and offers lively acceleration and great top-end power, plus economy and reliability. A great power-to-weight ratio means you get thrilling speed and agile handling.

Lightweight hull and body for top performance

Made possible by Yamaha's unique materials technology, NanoXcel2® is an impressive 18% lighter than our revolutionary NanoXcel® – yet just as rigid and strong. It maximises the exciting performance of both the new JetBlaster, helping it deliver its superb acceleration and even sharper cornering.

All new handlebars and chocks

The JetBlaster's handlebars have been designed with a smooth, curved shape, providing intuitive support for a unique riding style. Foot chocks allow you to easily adjust your weight, opening up a more playful freestyle ride.

Performance-inspired electric trim

Adjust the height of the bow on the go. Raise the bow to reduce water spray and nose-diving, then dip down low for more grip in the corners. A smoother, more skilful ride is just a touch away.

Storage as standard

Take everything with you, as standard. The JetBlaster offers wet storage in the bow for tow lines beach games and more. Underseat storage provides a spacious and handy location for all your adventure essentials. Finally, the glove box provides easy access to your shades, snacks and other bits you need to have to hand.

Engine

Engine type	4-stroke; 3-cylinder; TR-1 High Output
Supercharger	No
Displacement	1,049cc
Bore x stroke	82 mm × 66.2 mm
Compression ratio	11.0 : 1
Pump type	144 mm axial flow
Fuel	Unleaded Regular Gasoline
Fuel supply system	Electronic Fuel Injection
Fuel capacity	50 litres
Lubrication system	Dry sump
Oil capacity	3.5 litres

Dimensions

Length	3.14 m
Width	1.13 m
Height	1.15 m
Dry weight	249 kg

Features

Storage capacity	29 litres
Rider capacity	1-3 people
