

The Darkest Energy

When Yamaha launched the first MT Hyper Naked a decade ago the motorcycle world changed forever. With a clear focus on torque, agility and feel, the MT range has given riders the chance to experience the raw emotion and on-demand excitement that makes every Hyper Naked special.

With its more powerful engine, restyled body and proven chassis, the next evolution of the MT-10 is the ultimate Yamaha Hyper Naked that has been built for every rider who wants to own, ride and appreciate one of today's most outstanding motorcycles.

Everything about this King of the MT lineup is special – from the tuned intake roar and howl of the titanium exhaust, through to the R1-derived Deltabox chassis and the thrilling scream created by the 998cc CP4 engine's uneven firing sequence. When you understand what this bike is about, you'll know you've got to have it.

- 4.2" TFT Meter with Ride Mode selection
- Brembo Radial Master cylinder
- Cruise Control
- Speed Limiter
- 998cc CP4 engine
- Latest MT evolution design including full LED lighting
- APSG Throttle with selectable PWR-modes
- Titanium exhaust system
- Up and Down Quick Shift System
- 6-Axis IMU with full rider aids suite
- Bridgestone S22 Tyre

The Darkest Energy

Tuned to produce an even more sensational feeling of torque for the most thrilling experience, the new MT-10 is the most advanced Hyper Naked ever built by Yamaha. Manufactured using cutting-edge engine and chassis technology from the R1, the latest MT-10 gives you more power, more agility and more feel.

The King of the MT lineup demands total respect, and the first thing that's going to grab your attention is the compact new headlight assembly and restyled tank that highlight the MT-10's outstanding mechanical beauty. And the moment you hear the 998cc CP4 engine's deep intake roar coming out of the air intakes, you'll know that this bike is the one for you.

Hidden deep in the lightweight Deltabox chassis is the most sophisticated package of electronic rider aids, designed to give you the highest degree of controllability. With adjustable high-tech systems that control traction, slides, wheelies, engine braking and braking, you can make your MT-10 behave exactly the way you desire.

4.2" TFT Meter with Ride Mode selection

The new 4.2-inch full-colour TFT display gives a clear overview of all the information you need for a ride. The Menu switch on the right handlebar enables you to move quickly between different screens – and the Mode/Select switch on the left handlebar changes the settings on the electronic rider aids individually – or you can switch all settings at once by using the 4-mode YRC.

Brembo Radial master cylinder

With its R1 derived system featuring dual floating 320mm discs and 4-piston radial mounted calipers, the MT-10 is equipped with the most sophisticated braking package fitted to any production Yamaha. The new model benefits from a Brembo radial front brake master cylinder for even more accurate feel and controllability, giving you the ultimate stopping performance.

Cruise Control

Despite the MT-10's staggering performance there will be times when you want to chill out and enjoy the scenery. Once you're travelling above 50km/h it's easy to activate the Cruise Control and simply enjoy the ride. It's also a great way to make sure that you comply with speed limits.

Speed Limiter

Whether you're riding in adverse weather conditions or on a challenging and twisty road, there are times when it's a good idea to set a top speed limit. The MT-10 has the technology to help you with its Yamaha Variable Speed Limiter (YVSL). Simply choose your preferred top speed, set it via the Mode/Select switch and relax.

998cc EU5 CP4 engine

Nothing can match the thrill of the MT-10's more powerful 998cc EU5 CP4 engine. Its crossplane technology design gives a unique uneven firing sequence that delivers sensational torque for remarkable acceleration – and the latest bike features a tuned intake system with larger intake ducts and tank-mounted Acoustic Amplifier Grilles that emit a deep roar for a spine-tingling experience as you open the throttle.

Latest MT evolution design

While retaining the raw and intimidating character of every Yamaha Hyper Naked, the latest MT-10 gets a completely new look that focuses on the bike's mechanical beauty by stripping away any unnecessary body elements. The compact new twin-eye LED headlight assembly and the large intake ducts project a powerful and dominant presence – and the minimal front overhang consolidates the bike's brutal good looks and mechanical appearance.

Engine

Engine type	EURO5; 4-stroke; Liquid-cooled; 4-Cylinder; DOHC
Displacement	998 cc
Bore x stroke	79,0 × 50,9 mm
Compression ratio	12,0 : 1
Lubrication system	Wet sump
Clutch Type	Wet; Multiple Disc
Ignition system	TCI
Starter system	Electric
Transmission system	Constant Mesh; 6-speed
Final transmission	Chain
Maximum power	122.0 kW (165,9 PS) @ 11.500 rpm
Maximum Torque	112,0 Nm (11,4 kg-m) @ 9.000 rpm
Fuel consumption	6,83 L/100 km
CO2 emission	159 g/km

Chassis

Frame	Diamond
Front suspension system	Telescopic fork
Front travel	120 mm
Rear suspension system	link suspension; Swingarm
Rear Travel	120 mm
Front brake	Hydraulic dual disc brake, Ø 320 mm
Rear brake	Hydraulic single disc brake, Ø 220 mm
Front tyre	120/70 ZR17M/C (58W) Tubeless
Rear tyre	190/55 ZR17M/C (75W) Tubeless
Caster Angle	24°
Trail	102 mm

Dimensions

Overall length	2.100 mm
Overall width	800 mm
Overall height	1.165 mm
Seat height	835 mm
Wheel base	1.405 mm
Minimum ground clearance	135 mm
Wet weight (including full oil and fuel tank)	212 kg
Fuel tank capacity	17 L
Oil tank capacity	4,90 L
