

The smartest choice for Urban Mobility

Yamaha takes Urban Mobility to the next level with the all-new Tricity 300. Its economical Blue Core EURO5 300cc engine gives you plenty of power for riding longer distances on the highway. And its strong torque and smooth acceleration makes this the smartest and quickest way to move in and around the city.

In town you'll appreciate the lowest-in-class weight that makes it so agile and easy to manoeuvre – and the Standing Assist System takes the strain when you stop. Large 267mm disc brakes deliver plenty of stopping power, and the twin 14-inch front wheels add to the feelings of confidence and stability.

Nothing comes close to the matching the Tricity 300 in terms of styling. Its dynamic bodywork has been inspired by Yamaha's premium sport scooters – and the chiseled features and compact fairing complement its sporty and agile character. It's the smartest choice for Urban Mobility.

- Large diameter disc brakes
- Traction control system (TCS)
- 3-wheel Urban Mobility with Tricity DNA
- Standing Assist System
- Lightest in class / Autonomy
- Large storage space
- LCD instruments and high-quality finish
- Economical and powerful 300cc Blue Core engine

The smartest choice for Urban Mobility

The Tricity 300 is ready to change your life. Its 3-wheel layout gives a new feeling of stability and confidence – and being the lightest and most stylish model in the class it's the smartest way to move in the city. And the good news is that you can ride it on your full B* car licence! (*Limitations and restrictions may apply per country under applicable laws. Additionally, Yamaha recommends all riders to take a motorcycle training course before riding any two or three wheeled vehicles.)

Everything about this premium Urban Mobility vehicle is designed to make commuting simple, easy and fun. The dual leaning front wheels provide additional grip for smooth cornering – and the lightweight steering and narrow dimensions make it easy to filter through congested streets.

Every time you come to a stop the Standing Assist System is a welcome convenience – and when the lights go green the responsive 300cc Blue Core EURO5-compliant engine gets you to your destination in record time. With beautifully styled bodywork and a class-leading specification, the Tricity 300 is the best move in town.

3-wheel Urban Mobility with Tricity DNA

Yamaha is opening up the world of Urban Mobility to an even wider audience with the Tricity 300. Offering dynamic styling and versatile performance together with best-in-class specifications and user-friendly technology, this accessible new 3-wheel scooter can be ridden with a full B car licence*, giving more people the chance to move freely around the city. (*Limitations and restrictions may apply per country under applicable laws. Additionally, Yamaha recommends all riders to take a motorcycle training course before riding any two or three wheeled vehicles.)

Economical and powerful 300cc Blue Core EURO5 compliant engine

Driven by a powerful and economical 300cc Blue Core EURO5 engine, the new Tricity 300 takes Urban Mobility to another level. The liquid-cooled single cylinder 4-stroke engine produces plenty of power for longer distance highway riding – and with its strong and smooth low-speed torque and optimized automatic transmission, you just twist and go!

Standing Assist System

Urban commuting usually involves a lot of stop-start riding, so Yamaha has developed a Standing Assist System to provide added convenience when you stop at lights or junctions.

Lightest in class / Great autonomy

The Tricity 300 is designed to give you the lightweight agility of a scooter with the added feelings of confidence and stability that come with 3 wheels. As well as being the lightest model in the class it's also got one of the highest specifications – and with its 13-litre tank and aerodynamic body and screen, it's the smarter choice for long journeys.

Large storage space

As well as its sporty good looks, sleek bodywork and best-in-class specifications, the dynamic Tricity 300 is also an extremely practical and functional vehicle. There's storage space for two full-face helmets or an A4 briefcase, and you can operate the ignition and locks with the convenient Smart Key. There's also a DC outlet in the front panel for your devices.

LCD instruments and high-quality finish

The Tricity 300 is a high-end vehicle with a quality look and premium finish. Its class-leading specification includes an auto-style instrument panel that displays key information in a clear and easy to understand style. Indicator lights show ABS, Standing Assist System, TCS and ambient air temperature – with a useful warning that comes on at 3°C and lower.

Engine

Engine type	4-stroke; Liquid-cooled; SOHC; 4-valves; Single cylinder
Displacement	292 cc
Bore x stroke	70.0 x 75.9 mm
Compression ratio	10.9:1
Maximum power	20.6 kW @ 7,250 rpm
Maximum Torque	29.0 Nm @ 5,750 rpm
Lubrication system	Wet sump
Fuel system	Fuel Injection
Ignition system	TCI
Starter system	Electric
Transmission system	V-Belt Automatic
Fuel consumption	3.3 l / 100 km
CO2 emission	77 g / km

Chassis

Front suspension system	Double telescopic fork
Front travel	100 mm
Rear suspension system	Unit Swing
Rear Travel	84 mm
Front brake	Hydraulic disc brake, Ø267 mm
Rear brake	Hydraulic single disc brake, Ø267 mm
Front tyre	120/70-14M/C 55P Tubeless
Rear tyre	140/70-14M/C 62P Tubeless

Dimensions

Overall length	2,250 mm
Overall width	815 mm
Overall height	1,470 mm
Seat height	795 mm
Wheelbase	1,595 mm
Minimum ground clearance	130 mm
Wet Weight	239 kg
Fuel tank capacity	13Litres
