

Compact, light and tough

Jump into a YAM 270 TAF and join the thousands of happy owners cruising round the ports, marinas and inland waters of Europe. Renowned for its stability and sea-keeping ability combined with the compact dimensions, this YAM inflatable help people get out on the water more easily – and have more fun.

All YAM models share the Yamaha reputation for proven reliability – and durability that's really long-lasting. The hulls and keels are designed for maximum practicality, agility and performance with a comfortable, stable and secure ride

Just add a stylish Yamaha outboard, with its world class performance and supreme reliability – for an unbeatable package.

- Ideal yacht tender or small family boat
- Perfectly partnered with a Yamaha outboard up to 8hp
- Rigid aluminium hull for comfort and stability
- V-shaped hull for enhanced sea-keeping
- Easy handling and great manoeuvrability
- Light, strong aluminium oars with easy-stow clips
- Reinforced transom for Yamaha outboard motor
- Air pump included for quick set-up and get-away

Compact, light and tough

Lightweight and easy to handle off the water. Strong and nimble on the water. The YAM 270 TAF is your perfect partner, either as an agile tender or a fun, affordable craft for a small family to enjoy.

The YAM 270 TAF is compact but mighty, offering the same resilient sea keeping properties as its larger siblings in the range. A super lightweight construction makes moving it around out of the water an absolute breeze. Easily stowable on a larger boat or at home.

Handling is a breeze – with the rigid aluminium hull and V-shape keel – and you have a choice of using the strong aluminium oars, with their easy-stow tube clips and sturdy rowlocks, or fitting a world class Yamaha outboard, renowned for its smooth performance, economy and stylish reliability.

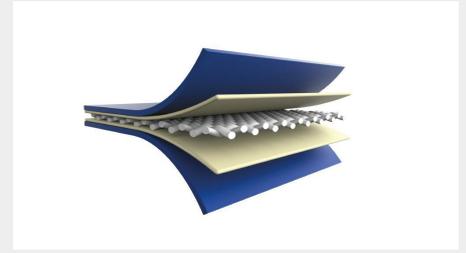

Aluminium V-hulls – really tough and comfortable

When it comes to delivering a true all-rounder, the smart, anti-slip aluminium V-hull helps take the performance of these models up to another level. They add to the stability, comfort and general 'feel' of these light and easy-handling inflatables, really adding to the enjoyment and fun and enjoyment of being out on the water.

Functional flat deck

Step aboard in style as the flat deck of this craft offers an easier boarding experience, particularly from a yacht, along with plenty of space for fishing gear, picnic baskets or anything you want to bring along on your adventure.

Built to last

For maximum strength and good looks, all YAM inflatables are constructed using the latest generation PVC material, with most seams and joints thermo-welded for optimum water tightness and safety. The result is a smart, clean exterior surface that is highly resistant to abrasion, salt water and sunlight.

Built to take the pressure

A cleverly designed air baffle system is incorporated into the hull tubes of all YAM inflatables, helping to keep the individual chambers completely sealed for safety. It also ensures air pressure is maintained equally throughout the tube and allows your boat to absorb minor impacts without major problems.

The perfect Yamaha partnership

Yamaha outboards are renowned for smooth performance, turnkey reliability, style and economy – this YAM 270TAF inflatable, with its unique underwater profile to the optimised transom angle and height, is designed to be a perfect match with the whisper-quiet 8hp or 6hp Yamaha outboard.
