

Wolverine X4 850

4-seater fun with 2-seater agility

The Wolverine® X4's compact short-wheelbase chassis is built to handle technical terrain with total confidence - and the self-leveling rear suspension maintains ground clearance for a smooth ride when fully loaded.

For added comfort the driver's seat and steering wheel are adjustable - and the rear seats can be folded to increase the cargo capacity. Our 850cc parallel twin engine gives you all the power you need - and conversations between passengers are easy thanks to the X4's ultra-low noise and vibration levels.

The Wolverine® X4 850 is the perfect 4-seater off-road leisure vehicle, enabling you to share your adventures and experience the beauty of off-road driving with friends and family.

- Strong, smooth and quiet 2 cylinder 850cc power
- Fully loaded with Yamaha Off Road technology
- 4 seater ROV with convertible rear seats
- Work-ready capability, comfort and trail-proven
- Key controlled Speed Management System
- T-category homologation optional

Wolverine X4 850

4-seater fun with 2-seater agility.

The Wolverine® X4 850 is built to take 4 full-sized adults across extreme terrain - and with its high-torque engine and compact chassis, this user-friendly SxS gives you capability, comfort and confidence! For 2022 the upgrades are a Sun Roof and adjustable Piggy back front shock-absorber. #DRIVENBYFREEDOM

The Wolverine® X4's powerful 850cc parallel twin-cylinder engine produces impressive torque for easy low-speed mastery of technical terrain, while the smooth-running Ultramatic® transmission and our switchable On-Command drive system with 2WD/4WD/Diff-lock give you even more confidence and control!

With high-back seats that easily accommodate 4 adults, this is one of the most comfortable ways to get out and explore the far horizons with your friends. Its compact chassis gives outstanding levels of agility and maneuverability in all types of terrain and conditions.

Wolverine X4 850

Powerful 850cc twin cylinder engine

The 850cc parallel twin cylinder engine produces high levels of linear torque, giving the X4 the ability to carry 4 full-sized adults and their cargo across technical and hilly landscapes with ease. Power delivery is potent across the speed range but a special ECU mapping gives even smoother power and control at low speed.

Compact and agile chassis

Form really follows function in the versatile Wolverine X4. Its compact chassis features a short wheelbase of only 2,125mm, so with the ROPS (Roll Over Protection System) which is sleek and narrow - allowing for better all-round visibility – this machine is great on tight trails. The wider door design makes for even easier access.

Quiet and comfortable interior

We've gone to great lengths to make sure that you and your passengers are able to enjoy a quiet and relaxing ride. The large volume intake and exhaust systems drastically reduce engine noise and make conversations between occupants easy to hear - while the rubber engine mounts and extensive chassis insulation minimize footboard vibration.

Self-leveling rear shocks

Whether riding solo or with passengers and cargo, the self-levelling rear suspension makes sure every journey is comfortable. This intelligent system helps to maintain a consistent ride height that enhances the overall ride quality and provides excellent ground contact for maximum grip – optimizing the advantage of the impressive 27" Dirt Commander tyres.

4 full-size high-back seats

The Wolverine X4 850 is equipped with full-size seats that are designed to accommodate 4 passengers in comfort. These luxurious high-back seats ensure that you and your passengers experience a relaxing and enjoyable ride - even on the most extreme terrain.

Adaptable and versatile layout

Increased adjustability is a feature of this model. Extra comfort, security and control can be obtained by adjusting the seat and seatbelt positions and steering wheel tilt, while the foot pedal designs also aid control. When passengers are not being carried in the back, the two rear seats can be folded to increase the cargo bed size and capacity.

Engine

Engine type	Liquid-cooled; 4-stroke; DOHC; Parallel Twin
Displacement	847cc
Bore x stroke	82.0 mm x 80.2 mm
Compression ratio	10.5 : 1
Ignition system	TCI
Lubrication system	Dry sump
Starter system	Electric
Transmission system	Yamaha Ultramatic® CVT automatic V-belt
Drive system	On-Command® 2WD, 4WD, 4WD with Diff-lock
Final transmission	Shaft
Fuel system	Mikuni fuel injection with Drive by wire, dual 36mm throttle bodies

Chassis

Front suspension system	Independent Double Wishbone with Anti-Sway Bar, 221 mm of wheel travel. KYB Piggy back shocks with threaded spring preload, Hi & Low speed compression and rebound adjustment.
Rear suspension system	Independent Double Wishbone with Anti-Sway Bar, 226 mm of wheel travel with self-leveling shock absorbers
Front brake	Dual ventilated hydraulic disc
Rear brake	Dual ventilated hydraulic disc; Shaft mounted parking brake
Front tyres	27"Dirt Commander tyres / 12" Aluminium rims
Rear tyres	27"Dirt Commander tyres / 12" Aluminium rims

Loading limits

Cargo bed	272 kg
-----------	--------

Dimensions

Overall length	3,100 mm
Overall width	1,580 mm
Overall height	1,973 mm
Wheelbase	2,125 mm
Minimum ground clearance	286 mm
Wet weight (including full oil and fuel tank)	754 kg
Fuel tank capacity	35 litres
Oil tank capacity	4.4 litres
Min. turning radius	4.5 m

Additional feature

Steering System	Rack and Pinion Steering Assembly with Electric Power Steering
Towing capacity	907 kg
Instrumentation	Digital LCD meter with fuel gauge, speedometer, odometer, trip meter, maintenance meter, hour meter, 2WD/4WD/Diff-Lock Indicator, L/H/N/R gear indicator, parking brake indicator, engine warning light, water temperature warning light and gauge, Battery

Wolverine X4 850

The unit depicted on the images shown is equipped with optional Yamaha Genuine Accessories

ATVs with engines up to 50cc are recommended for use only by riders 6 years and older and always with adult supervision. ATVs with engines of 70 to 90cc are recommended only for use by riders 12 years and older, and always under adult supervision. ATVs with engines of 90cc or greater are recommended for use only by riders 16 years and older. Our Side-by-Side Vehicles are recommended for use only by riders of 16 years and older. ATVs and Side-by-Side Vehicles are built to operate within their design limits. Safe towable weights, together with maximum carrying capacity are identified in the owner's manual if applicable. For durability, reliability, but most important of all, operator and passenger (for Side-by-Side Vehicle only) safety, under no circumstances should the recommended capacities be exceeded. ATVs can be hazardous to operate. For your safety: always avoid paved surfaces. ATVs and Side-by-Side Vehicles are designed for unpaved surfaces only. Riding on paved surfaces may seriously affect handling and control and can cause loss of control. Always wear a helmet, eye protection, and protective clothing. Never carry any passengers on ATVs and always wear a seatbelt when riding a Side-by-Side Vehicle. Never engage stunt riding. Riding and alcohol/drugs don't mix. Avoid excessive speed. And be particularly careful on difficult terrain. Please 'tread lightly': always ride in a responsible manner, respecting the environment as well as country and local laws. Yamaha recommends that all ATV and Side-by-Side Vehicle riders take an approved training course. For safety and training information, see your dealer or call your Yamaha Distributor in your country. The specification and appearance of Yamaha products will be varied from time to time without notice, and those shown here are for illustrative purposes only and are not contractual descriptions of products. Some models are shown with optional accessories. The riders in this brochure are professionals: don't attempt to emulate them. All ATVs and Side-by-Side Vehicles come with a 12-month Limited Factory Warranty. See your dealer for details.
