

Re-Define Your Reality,

Every R-Series is built without compromise, so when you make the final decision to choose the R125 you can be totally confident that you have become the owner of a premium supersport motorcycle that is designed to deliver the ultimate riding experience. Every time.

Probably the first thing that hits you when you see the R125 is its aggressively styled fairing that looks like it has come straight from the racetrack. And when you check out the beautifully finished chassis and bodywork in the new duo-tone Icon Blue coloured bodywork option, you'll know immediately that Yamaha quality is second to none.

- High-tech 125cc engine with VVA system
- Premium duo-tone Icon Blue with matt blue colouring
- Deltabox frame for precise handling and control
- Lightweight aluminium swingarm for high speed stability
- A&S (Assist & Slipper) clutch
- R-Series LED twin-eye body design
- 11-litre fuel tank
- MotoGP®-inspired M1 type cockpit
- High-visibility LCD instruments
- Sporty and comfortable riding position
- Wide 140-section rear tyre

Once you've taken this ultimate 125 supersport for a ride there will be no going back. From the responsive EU5 125cc engine through to the compact Deltabox frame with 41mm USD forks and lightweight aluminium swingarm, the R125 gives you outstanding performance with precise control. So you'll know straight away that this bike was made for you, and you were made for this bike.

Re-Define Your Reality.

The R125 is like no other machine in the A1 license category. Built with the same race-bred DNA that gives Yamaha riders the winning edge in WorldSBK and MotoGP®, this aggressively styled lightweight supersport is ready to introduce you to the excitement and exclusivity that comes with entry into R/World.

From the first time you twist the throttle you'll realize why the R125 commands total respect on the street. Its punchy 125cc EU5 motor is equipped with Yamaha's power-boosting VVA system for truly outstanding striking performance and forceful acceleration – and the race-type A&S clutch gives you precise chassis control when downshifting.

Just like every R-Series model the R125 features a compact Deltabox chassis equipped with an aluminium swingarm, as well as 41mm USD forks and lightweight wheels for outstanding cornering agility. The new duo-tone Icon Blue colour option underlines its dynamic look – while the optimized handlebar position, well-padded seat and aluminium rear set footrests give a balanced and comfortable ride. Re-Define Your Reality!

High-tech 125cc engine with VVA system

The R125's highly efficient engine is equipped with large intake and exhaust valves and a compact combustion chamber that provides impressive acceleration. Its And its high-tech VVA Variable Valve Actuation (VVA) system optimizes the valve position for strong low rpm torque with high rpm power. A While the wide diameter throttle body gives a smooth and controllable throttle feel – and the sports exhaust system produces a sporty and emotive sound.

Icon Blue and Tech Black colours

The R125 shares the same race-bred DNA as every member of the iconic R-Series family. Now available in a new premium duo-tone Icon Blue colour with matt blue detailing – as well as a dynamic Tech Black option – this is surely the most impressive looking R125 ever!

Deltabox frame

Delivering smooth and light handling characteristics as well as excellent high-speed comfort, the R125 is one of the best-handling bikes in its category. Its Deltabox frame uses optimum front and rear geometry as well as a short aluminium swingarm and 41mm upside down forks to give you the ultimate 125cc supersport chassis specification.

Lightweight aluminium swingarm

Yamaha R-Series models are designed to give you the ultimate in style, performance and technology. And to underline this, the R125 features a lightweight aluminium swingarm. Manufactured using Yamaha's advanced casting technology, its short dimensions, low weight and optimized rigidity deliver sporty handling performance.

A&S (Assist & Slipper) clutch

To help you take full advantage of the free-revving engine performance, the R125 is equipped with an A&S clutch that gives a light feel at the lever for easy operation and precise control. This design ensures smooth and efficient acceleration, and during deceleration the A&S clutch improves controllability.

R-Series LED twin-eye body design

Inspired by the iconic R1, the confident and aggressively styled face of the R125 features dual LED headlights that reinforce the shared family DNA. And with the M1 MotoGP® style front fairing, LED taillight and premium finish emphasizing the race-bred specification, there's no mistaking that pure R-series DNA runs through the R125's stunning bodywork.

Engine

Engine type	4-stroke; Liquid-cooled; SOHC; 4-valves
Displacement	125cc
Bore x stroke	52.0 mm x 58.7 mm
Compression ratio	11.2 : 1
Lubrication system	Wet sump
Clutch Type	Wet; multiple-disc coil spring
Ignition system	TCI (digital)
Starter system	Electric
Transmission system	Constant Mesh; 6-speed
Final transmission	Chain
Carburettor	Electronic Fuel Injection
Maximum power	11,0kW (15,0PS) @ 10.000 rpm
Maximum Torque	11,5Nm (1,16 kg-m) @ 8.000 rpm
Fuel consumption	2,1 L / 100 km
CO2 emission	47 g/km

Chassis

Frame	Steel Deltabox
Front suspension system	Upside-down telescopic fork, Ø41 mm
Front travel	130 mm
Rear suspension system	Swingarm; (Link type suspension)
Rear Travel	114 mm
Front brake	Hydraulic single disc, Ø292 mm
Rear brake	Hydraulic single disc, Ø220 mm
Front tyre	100/80-17 M/C
Rear tyre	140/70-17 M/C
Caster Angle	26°
Trail	95mm

Dimensions

Overall length	1,990 mm
Overall width	755 mm
Overall height	1,140 mm
Seat height	820 mm
Wheel base	1,325 mm
Minimum ground clearance	160 mm
Wet weight (including full oil and fuel tank)	144 kg
Fuel tank capacity	11.0litres
Oil tank capacity	1.15litres
