

R125 World GP 60th Anniversary

World GP 60th Anniversary.

Yamaha won the first of many World Championships a few years after the company was founded. So far Yamaha factory bikes have taken over 500 Grand Prix wins – and the R125 World GP 60th Anniversary's historic white and red racing colour scheme pays tribute to 60 years of competing at the very highest level.

Racing is an integral part of Yamaha's DNA. The company entered and won its first race in Japan just 10 days after the very first Yamaha motorcycle was manufactured in July 1955. But winning at home was just the beginning – and 60 years ago Yamaha made its international road racing debut at the French Grand Prix.

- World GP 60th Anniversary colours
- High-tech 125cc EU5 engine with Variable Valve Actuation system
- Excellent combustion efficiency
- Deltabox frame for precise handling and control
- Lightweight aluminium swingarm for high speed stability
- A&S (Assist & Slipper) clutch
- R-Series DNA body design
- 11-litre fuel tank
- M1-inspired cockpit
- High-visibility LCD instruments
- Sporty and comfortable riding position

R125 World GP 60th Anniversary

Many of Yamaha's World Championships were in the 125cc class, and just like the winning race bikes the R125 World GP 60th Anniversary has been built without compromise. From its iconic white coloured fairing with red 'speed block' graphics – as well as the yellow front plate, 60th anniversary emblem and golden wheels – through to the high-tech EU5 engine, lightweight chassis and aggressive MotoGP®-inspired bodywork, the R125 World GP 60th Anniversary is built to lead the way.

60 years of racing heritage.

With its high-tech 125ccc EU5 engine, lightweight chassis and race-bred MotoGP®-style bodywork, the dynamic R125 supersport delivers thrilling performance with precision handling – making it the hottest property in the 125cc class. Featuring the historic white and red racing design to celebrate Yamaha's 60 years of GP racing, the stunning new R125 World GP 60th Anniversary brings iconic race bike style to the 125cc class!

The R125 World GP 60th Anniversary's aerodynamic white bodywork features Yamaha's red 'speed block' graphics, that were made famous by Yamaha's Grand Prix race bikes since 1961. And just like the World Championship-winning machinery this exclusive lightweight R-Series comes with gold-coloured wheels, a red front fender and yellow front number plate – as well as a 60th anniversary emblem and bold red stripe running along the top of the fuel tank and tail that signify its pure racing DNA.

For outstanding road holding the bike's compact Deltabox chassis features 41mm USD front forks and a lightweight aluminium swingarm, as well as state-of-the art brakes and lightweight wheels. The Assist & Slipper (A&S) clutch gives you increased controllability when decelerating – and the stunning looking aerodynamic bodywork with its M1-inspired fairing and cockpit make this World GP 60th Anniversary the most desired 125cc supersport and confirm your entry into R/World.

R125 World GP 60th Anniversary

World GP 60th Anniversary colours

Yamaha's original GP bikes featured a white fairing with red "speed block" graphics, as well as a red front fender and golden wheels. The R125 World GP 60th Anniversary recreates this iconic look and pays tribute to the machines and riders that have helped Yamaha win over 500 Grand Prix and 38 World Championships, since the company's first GP in 1961.

High-tech 125cc EU5 engine with VVA system

The R125 World GP 60th Anniversary's engine benefits from an innovative Variable Valve Actuation (VVA) system that optimizes the valve position for high levels of low rpm torque with strong high rpm power – and delivers excellent fuel efficiency. A wide diameter throttle body gives a smooth and controllable throttle feel – and the exhaust system produces a sporty and emotive sound.

Excellent combustion efficiency

To achieve high levels of intake efficiency the R125 World GP 60th Anniversary's engine is equipped with large intake and exhaust valves as well as a compact combustion chamber. Combined with the high-tech VVA – as well as the large throttle body and sports exhaust system – this configuration produces impressive acceleration.

Deltabox frame for precise handling and control

Delivering smooth and light handling characteristics as well as excellent high-speed comfort, the R125 World GP 60th Anniversary is one of the best-handling bikes in its category. Its Deltabox frame uses optimum front and rear geometry as well as a short aluminium swingarm and 41mm upside down forks to give you the ultimate 125 supersport chassis specification.

Lightweight aluminium swingarm

Yamaha R-Series models are designed to give you the ultimate in style, performance and technology, and to underline its position as the premium 125 supersport, the R125 World GP 60th Anniversary features a lightweight aluminium swingarm. Manufactured using Yamaha's advanced casting technology, its short dimensions, low weight and optimized rigidity deliver sporty handling performance.

A&S (Assist & Slipper) clutch

To help you take full advantage of the free-revving engine performance, the R125 World GP 60th Anniversary is equipped with an A&S clutch that gives a light feel at the lever for easy operation and precise control. This design ensures smooth and efficient acceleration, and during deceleration the A&S clutch improves controllability.

R125 World GP 60th Anniversary

Engine

Engine type	4-stroke; Liquid-cooled; SOHC; 4-valves
Displacement	125cc
Bore x stroke	52,0 mm x 58,7 mm
Compression ratio	11,2 : 1
Lubrication system	Wet sump
Clutch Type	Wet; multiple-disc coil spring
Ignition system	TCI (digital)
Starter system	Electric
Transmission system	Constant Mesh; 6-speed
Final transmission	Chain
Carburettor	Electronic Fuel Injection
Maximum power	11,0kW (15,0PS) @ 10.000 rpm
Maximum Torque	11,5Nm (1,16 kg-m) @ 8.000 rpm
Fuel consumption	2,1 L / 100 km
CO2 emission	47 g/km

Chassis

Frame	Steel Deltabox
Front suspension system	Upside-down telescopic fork, Ø41 mm
Front travel	130 mm
Rear suspension system	Swingarm; (Link type suspension)
Rear Travel	114 mm
Front brake	Hydraulic single disc, Ø292 mm
Rear brake	Hydraulic single disc, Ø220 mm
Front tyre	100/80-17 M/C
Rear tyre	140/70-17 M/C
Caster Angle	26°
Trail	95mm

Dimensions

Overall length	1.990 mm
Overall width	755 mm
Overall height	1.140 mm
Seat height	820 mm
Wheel base	1.325 mm
Minimum ground clearance	160 mm
Wet weight (including full oil and fuel tank)	144 kg
Fuel tank capacity	11,0 L
Oil tank capacity	1,15 L
