TRACER 9

Turn up your emotions

In 2015 the first TRACER 900 changed the Sport Touring class forever. With its torque-rich CP3 engine, sporty chassis and all-round versatility, it's become the bike of choice for over 50,000 European riders who want an agile and exciting multi-role motorcycle with plenty of attitude. Perhaps no surprise that it's the best-selling bike in its class.

Equipped with powerful 890cc CP3 engine as well as an agile and responsive aluminium Deltabox chassis – and featuring the most sophisticated electronic rider aids from Yamaha's dominant R1 Supersport bike – the TRACER 9 is ready to turn up your emotions.

Sporty, light and easy to live with, the TRACER 9 is the kind of bike that is always ready to do what you want and take wherever you desire. With is high overall specification as well as athletic wind-beating bodywork, 3-bag luggage capacity and strong all-round performance, this high-specification Sport Tourer is ready to take on the world.

- EU5 890cc CP3 engine
- Lightweight CF aluminum die-cast frame
- Full 3-Bag luggage capability
- 6-Axis IMU plus lean-sensitive rider aids
- Next generation design and styling
- Full LED lighting
- Twin 3.5" TFT meters
- Lightweight SpinForged wheels
- Adjustable suspension
- 2-position adjustable seat
- Aerodynamic fairing
- Cruise Control system

Turn up your emotions

Whether your dream destination is near or far, TRACER 9 is the most inspiring and exciting way to travel. Touring is so much more than just riding – and with its easy ergonomics, aerodynamic bodywork and generous luggage capacity, this motorcycle is designed to make sure that you and your partner can enjoy every minute of every journey.

Its economical 890cc high-torque CP3 engine has the flexibility to cruise at whatever speed feels best – and with the ability to ride over 350 km between refills you can cover huge distances in a single day. And when you feel in the mood to push harder the TRACER 9 has the power and agility to get your adrenaline flowing on Europe's legendary mountain roads.

Wherever you travel you can always depend on the TRACER 9's smart technology to make every ride more exhilarating. Its 6-axis IMU governs the lean-sensitive electronic rider aids that give you control and confidence in varying surface and weather conditions – while twin TFT meters and full LED lighting underline this versatile Sport Tourer's premium specification.

TRACER 9

EURO5 890cc CP3 engine

Developing high levels of linear torque at low to mid rpm, the 890cc liquid cooled CP3 engine produces outstanding acceleration and thrilling corner exit speeds – making this the sportiest TRACER 9. Optimized gear ratios plus the A&S clutch deliver super-smooth performance – and the glorious growl from the twin-tail exhaust and efficient intake system amplifies the thrill of every ride.

Lightweight CF aluminium die-cast frame

TRACER 9 is equipped with a lightweight CF die-cast aluminium Deltabox frame providing high levels of rigidity that gives sport bike agility with sure-footed stability. For excellent high speed stability combined with sporty cornering and agile handling there's an extended TRACER 9-specific aluminium swingarm.

Full 3-bag luggage capability

TRACER 9 offers you the option of fitting a total of 3 hard luggage cases, enabling you and your passenger to take a full complement of kit on every road trip. Designed to handle up to 193kg on board, this versatile motorcycle is a true Sport Tourer in every sense.

6-Axis IMU plus lean-sensitive rider aids

TRACER 9 is equipped with some of the most advanced electronic rider aids for added confidence and precise controllability in different weather and road surface conditions. Developed from the R1M, the compact 6-axis IMU governs a lean-sensitive 3-mode Traction Control System (TCS), as well as a Slide Control System (SCS), front wheel LIFt Control System (LIF) and Brake Control system (BC).

Next generation design and styling

The compact and aerodynamic body design gives the TRACER 9 a modern and impressive look that perfectly conveys the bike's exciting sporting character alongside its versatile touring capabilities. The lightweight fairing enhances your riding comfort over long distances, and the 18-litre fuel tank gives a 350 km+ range between fuel stops.

Full LED lighting

Compact LED lighting is featured throughout the TRACER 9. Separate high/low mono-focus headlights give the bike a dynamic look and provide superior illumination in any situation. LED flashers reinforce the bike's premium status, and the signature TRACER family taillight enhances the bike's lightweight looks and sporty feel.
