

Versatility redefined

Powered by Yamaha's famous 890cc CP3 engine, the TRACER 9 GT+ produces outstanding performance at all engine speeds. Its strong, linear torque along with the upgraded bi-directional quickshifter deliver stunning seamless acceleration – and the new integrated ride modes make it simple to set up for different conditions.

Whether you're pushing hard on a twisty mountain road or highway cruising with a passenger and luggage, the lightweight aluminium Deltabox frame and KYB semi-active suspension balances stability with agility. With its full LED lighting and cornering lights, the TRACER 9 GT+ gives you added night-time riding confidence.

- Adaptive Cruise Control (ACC)
- 7-inch TFT Meter
- Connectivity and navigation
- Radar linked Unified Brake System
- 3rd generation quickshifter for the standard 6-speed manual transmission version
- Excellent Seat Comfort
- KYB semi-active suspension
- EU5 890cc CP3 engine
- Integrated ride modes
- Versatile, Lightweight chassis
- The complete GT package

As well as its sophisticated electronics the TRACER 9 GT+ comes with a range of well thought out details that you'll appreciate on every ride. Hard side cases are mounted to stays with built in dampers to eliminate vibes – and a grip heater provides all-season warmth. Offered in dedicated colours and graphics, TRACER 9 GT+ is always ready to go.

Connected Roads.

The new TRACER 9 GT+ is Yamaha's ultimate Sport Tourer with a best-in-class specification that delivers new levels of versatility, functionality and controllability. It's a motorcycle with the genuine potential to enrich your life by giving you the freedom to journey to faraway places whenever the mood takes you.

Equipped with the most advanced electronics support package ever seen on a Yamaha, the new TRACER 9 GT+ is built to take your riding experience to the next level. Its Adaptive Cruise Control and radar-linked Unified Brake System make every journey smoother and more relaxing – and the integrated riding modes make choosing the right set up so much easier.

The 7-inch multi-theme TFT meter offers full smartphone connectivity, enabling you to stay in touch when you're on the move – and with the Garmin Motorize app** you can access full-map navigation for effective route planning. All this cutting edge technology adds up to a very special Sport Tourer that is ready to take you wherever you want to go.

Adaptive Cruise Control (ACC)

TRACER 9 GT+ is the first Yamaha motorcycle to be equipped with Adaptive Cruise Control (ACC). The system automatically controls cruising speed, deceleration and acceleration to match the speed of the vehicle in front and maintain constant following distance, based on four adjustable pre-sets, making every ride smoother and more relaxing.

7-inch TFT Meter

The large 7-inch full-colour TFT meter features a high luminosity display that provides you with clear and easy to read information about real-time running conditions. You have the choice of three different screen layouts, each with its own distinctive style to match individual preferences and different riding conditions. A USB-A outlet below the meter keeps your smartphone ready for action

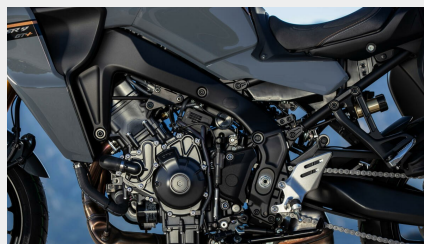

Connectivity and navigation

Operated by a simple joystick, the sophisticated new connected full-colour 7-inch TFT screen features a choice of three display styles. Through Yamaha's MyRide App you have access to your smartphone for music, weather, calls** and notifications. Full-map Garmin Navigation* makes every journey easier – while texts can be displayed when your TRACER 9 GT+ is parked. (* Full-map Garmin Navigation requires a subscription service agreement and is not offered in all countries. Some navigation features are not available in all countries, please check with Garmin for availability. ** Requires Bluetooth connected headset linked to the TRACER 9 GT+. Headset not included.)

Radar linked Unified Brake System

For a high degree of stability and controllability the Unified Brake System incorporates a hydraulic unit that automatically distributes braking force from rider inputs to both wheels in an unobtrusive way. TRACER 9 GT+ is the world's first motorcycle to adopt an innovative new radar-linked system that assists the rider's braking input when required and adjusts front/rear braking bias when the distance to the vehicle in front closes to a certain level.

3rd generation quickshifter

Yamaha's 3rd generation up and down quickshifter gives you even more flexibility in your riding style. Now you can also make clutchless downshifts while accelerating when you want even more drive – and even shift up while decelerating for reduced engine braking.

Seat Comfort

Long distance touring is more comfortable with a redesigned seat. A revised shape and foam density gives better support for long riding days and the leather-like material, embossing and stitching provides a premium image to the increased function.

Engine

Engine type	Liquid-cooled; 4-stroke; 4-valves; 3-Cylinder; DOHC
Displacement	890cc
Bore x stroke	78 x 62,1 mm
Compression ratio	11,5 : 1
Lubrication system	Wet sump
Clutch Type	Wet; Multiple Disc
Ignition system	TCI
Starter system	Electric
Transmission system	Constant Mesh; 6-speed
Final transmission	Chain
Carburettor	Fuel Injection
Maximum power	87,5 kW (119 PS) @ 10.000 rpm
Maximum Torque	93,0 Nm (9,5 kg-m) @ 7.000 rpm
Fuel consumption	5,0 L/100 km
CO2 emission	116 g/km

Chassis

Frame	Diamond
Front suspension system	Telescopic fork
Front travel	130 mm
Rear suspension system	Swingarm
Rear Travel	137 mm
Front brake	Hydraulic dual disc, Ø 298 mm
Rear brake	Hydraulic single disc, Ø 267 mm
Front tyre	120/70 ZR17M/C (58W) Tubeless
Rear tyre	180/55Z R17 M/C (73W) Tubeless
Caster Angle	25°00
Trail	108 mm

Dimensions

Overall length	2.175 mm
Overall width	885 mm
Overall height	1.430 mm - 1.470 mm
Seat height	820 mm - 835 mm
Wheel base	1.500 mm
Minimum ground clearance	135 mm
Wet weight (including full oil and fuel tank)	223 kg
Fuel tank capacity	19 L
Oil tank capacity	3,5 L
