

Easy, simple and versatile.

If you're the kind of rider who values simplicity and ease of use, then you're going to love what the latest Display A2 has to offer. First thing you'll notice is the wide, scratch resistant screen that displays key information in a large and easy to read format – making it ideal when visibility is poor.

For smooth and accurate operation the Assist Mode switches are redesigned and come with a matte surface for improved durability. Other new features include a reshaped Walk Assist switch, as well as a tough new outer case and grey coloured Yamaha logo.

Featuring 'always on' speed, 12-step battery capacity, and assist mode icons – as well as selectable trip, range, and km/mile odometer info, Display A2's rugged and versatile design makes it an ideal choice for all sorts of different riding conditions in the city and on the trail.

- Easy, simple and versatile.
- Large LED screen
- Ergonomic switches
- Comprehensive information

The easy, simple and versatile eBike display.

The Display A2 provides clear and easy to understand information in the city and on the trail. Its compact layout has been ergonomically designed to make operation smooth and easy – and its simplicity and versatility make it the perfect choice for your Yamaha powered eBike.

A key feature of Display A2 is its large LCD screen that makes it ideally suited to low visibility situations.

Newly designed Assist Mode and Walk Assist switches ensure positive operation, making Display A2 one of the easiest and most intuitive designs in its class. Featuring Speed, Battery and Assist Mode status – as well as selectable Trip Meter, Odometer and Range data, Display A2 enhances every ride.

Large LED screen

A key feature on Display A2 is the large LCD screen that makes it easy to read even in low visibility situations.

Comprehensive information

Display A2 always shows Speed, Battery and Assist Mode status, and you can select Trip Meter, Odometer and Range data as required.

Ergonomic switches

Display A2 features newly designed ergonomic Assist Mode switches that give improved operability. And the size and shape of the Walk Assist switch is also improved to provide smooth and accurate operation.

Compatible with 2019-on Yamaha drive units

Yamaha powered eBike, and there's also a retro fit kit that is suitable for models that are driven by a 2019 onwards Yamaha motor.
