

Ultimate performance.

Up the adrenaline and dial into your inner racer with the impressive GP SVHO in an iconic Deep Purplish Blue Metallic, a flagship machine that cuts the waves like no other. The supercharged ultra-powerful 4-cylinder SVHO engine, lightweight hull and slim design deliver ultimate power and cornering precision, redefining “extreme”.

Gain ultimate confidence and control as you fly through the waves. Our unique, revolutionary RiDE® system, lightweight NanoXcel2® hull, exclusive electronic control systems, and the largest-in-the-industry 1.8 Litre supercharged engine deliver cutting-edge technology and engineering throughout.

Fresh colour and graphics featuring an iconic vibrant Deep Purplish Blue Metallic, attention to detail, advanced design and sheer build quality mean that you have all the adventure with zero compromises. A powerful blend of outstanding performance and adrenaline-pumping DNA.

- Supercharged SVHO 1,812cc engine with EFI
- NanoXcel2 hull and body - robust and lightweight
- Race-inspired pump, impeller and intake grate
- Revolutionary RiDE® system for intuitive control
- Easy-access multi-function 4.3-inch colour display
- Auto-Trim function with Launch and Cornering control
- Electric trim and Reverse with traction control
- Narrower seat and handlebars – more control
- Lower, more central centre of gravity – faster cornering
- Extended re-mount platform with Hydro-Turf mat
- Tow hook and deep, soft-touch re-boarding step
- Twin multi-mount connection points (for nav or camera)

Ultimate performance.

Turn your adrenaline up to 11 with the impressive racing-inspired GP SVHO in an iconic vibrant Deep Purplish Blue Metallic. Go beyond extreme with a supercharged ultra-powerful 4-cylinder SVHO engine. Cut through the waves in total confidence thanks to the lightweight hull, slim design and cornering precision, delivering excitement without compromise.

Feel the joy and exhilaration of an instant blast of flagship-level power. The GP SVHO is a class-leading model featuring an array of engineering innovations that make riding it a straight shot in the arm of pure excitement. The Yamaha Motor signature features the lightweight NanoXcel2® hull, deck-paired with the revolutionary RiDE® control system for premium performance.

We did the detail, so you get all the thrills with superb levels of control. A race-inspired top-loader sports grate and ride plate enhance handling, cornering and rough water hook-up. Furthermore, the lower centre point of gravity, improved ergonomics seating, and handlebar design deliver a greater rider experience.

Race-inspired ergonomics

The balance and stability of the GP have been enhanced by lowering and centralising the centre of gravity along with the adoption of a narrower design for both the seat and the fully adjustable, race-design handlebar. Combined with the ergonomic sitting position and deeper footwells, the result is an amazing level of rider control.

Auto-trim function

This exclusive, industry-first system offers a fully automatic trim function, which operates independently of the efficient electronic trim control on the handlebar. When engaged, Cornering Control automatically shifts the trim down when decelerating for sharp cornering – Launch Control shifts the trim down to prevent bow rise when accelerating quickly.

4.3-inch multi-function colour display with fast access

Among its many talents, this clear and easy-to-read display helps you control and monitor all the systems on board, using the fast-access buttons next to the unit. Top speed and acceleration limits can also be entered from here - along with the PIN code-activated learning (L-mode) and security settings. We put the latest technology to work for you!

Race-inspired pump design

Improving both acceleration and handling, the pump, impeller and intake grate have been introduced as a result of the excellent results achieved in racing. The extra grip it gives on the water enhances responsive and accurate handling in all conditions.

Supercharged, DOHC, 16V 1,812cc engine

The 4-cylinder DOHC 1.8 Litre SVHO engine is the largest displacement in the industry, yet thanks to our continuous programme of innovation and product improvement, it is extremely compact. The result is astonishing power, acceleration and huge torque, along with clean efficiency and economy.

Extended rear platform and towing hook

The GP SVHO will appeal to water sports fans as well as speed enthusiasts, with its comfortable three-person seat, large integral mirrors, an extended rear platform with a large, soft-touch re-boarding step - and its strong, practical tow hook. Comfortable, slip-resistant Hydro-Turf mats are a pleasure to step onto after swimming.

Engine

Engine type	4-stroke;4-Cylinder;Super Vortex High Output
Supercharger	Yes
Displacement	1,812cc
Bore x stroke	86mm × 78mm
Compression ratio	8.5 : 1
Pump Type	160mm axial flow
Fuel	Unleaded premium Gasoline
Fuel supply system	Electronic Fuel Injection
Fuel capacity	70L
Lubrication system	Wet sump
Oil capacity	5.3L

Dimensions

Length	3.35m
Width	1.24m
Height	1.2m
Dry weight	342kg

Features

Storage Capacity	107.6L
Rider capacity	1-3 persons
