

Easy handling performance.

Performance, sportiness, comfort and handling, combined with exceptional economy, low maintenance and lots of cool features all guarantee the latest VX's position among the most popular watercraft. Plus it has, of course, the incredible all-round versatility the VX lineup is renowned for.

Adding staggering cool to your ride excitement. From our unique, revolutionary RiDE® system and robust hull, to the exciting High Output version of our TR-1® engine, the VX model has it all to boost your excitement and make you enjoy every ride.

A new sporty look in Pure White Solid with Pale Cyan details and high-end graphics, advanced design and sheer build quality add even more to the package and the result is guaranteed excellent performance and premium comfort. The best of both worlds.

- Powerful TR-1 High Output 1,049cc 3-cylinder engine
- Revolutionary RiDE® system for intuitive control
- Sporty styling, colours and graphics
- Large dual mirrors - helpful when towing
- Excellent ergonomic driving position
- Huge and practical storage with 114 litre capacity
- Large, watertight glovebox and separate phone storage
- Convenient self-draining footwells
- Easy re-boarding with extended re-mount platform

Easy handling performance.

Performance, sportiness, comfort and handling, combined with exceptional economy, low maintenance and lots of cool features all guarantee the latest VX's position among the most popular watercraft. Plus it has, of course, the incredible all-round versatility the VX lineup is renowned for, and a new look in Pure White Solid with Pale Cyan details.

The latest VX, powered by the High Output version of our TR-1® engine, is an intuitive, user-friendly personal watercraft that brings an immediate level of confidence, even to less experienced riders. It features a narrow deep seat and wide footwells for easier handling, plus our revolutionary RiDE® control technology.

With its sleek deck styling, attractive Pale Cyan details and sporty graphics, the VX offers an unbeatable package of exciting, class-leading quality enjoyment on the water. Explore it first-hand and witness the capabilities that will make you enjoy every ride.

RiDE® system (Reverse with intuitive Deceleration Electronics)

The revolutionary RiDE® system transforms your riding pleasure, bringing a new feeling of confidence to every rider at every level. Simply pull the lever on the right hand-grip to move forward and accelerate. Pull the lever on the left hand-grip to slow down or reverse.

TR-1® High Output 1,049cc, 3 cylinder engine

The VX is powered by our innovative 3-cylinder engine, the 1,049cc High Output TR-1®. This remarkably compact and lightweight unit offers an unbeatable package of exciting lively acceleration and great top-end power, plus economy and reliability. The light weight of this engine also helps deliver superior handling, agility and balance.

Sleek, modern design and graphics

We wanted the latest VX to look as good as it should feel, so we've enhanced the upper deck and added a powerful, attractive colour and graphics scheme that's truly eye-catching as you blast across the water. Looks great at the dock too.

Multi-Mount Accessories System

Wouldn't you like to have a way to take your chosen accessories with you when you set off for a day on the water? The Multi-Mount System means you can take your music speakers along with you, or your GPS, fish finder, your Go-Pro, or even your cup of coffee securely mounted to the great-looking body of the VX.

Extensive and practical storage facilities

The latest VX has huge amounts of practical storage space, including under-seat and bow storage, a very large, watertight glove box and even a handy space for your phone.

Narrow seat design for more comfort and optimum handling

Both the super-comfortable 2-piece seat and the handlebar of the VX are the latest narrower designs, which provide an excellent ergonomic sitting and driving position. Together with the deeper, wider footwells and redesigned grips, this gives great control over the handling.

Engine
