

Straight to the MAX.

Wherever you ride with your TMAX you can stay connected with the 7-inch full-colour TFT screen that enables you to access your smartphone for music, weather, calls** and notifications – and the Full-map Garmin Navigation* makes every journey more enjoyable. The Smart Key keyless system makes for fuss-free daily operation – and a new 5-way joystick and redesigned control switches make operation simpler. (* Full-map Garmin Navigation requires a subscription service agreement and is not offered in all countries. Some navigation features are not available in all countries, please check with Garmin for availability. ** Requires Bluetooth connected headset linked to the TMAX. Headset not included.)

The compact body features a slimmer waist as well as a longer seat with adjustable backrest for improved ergonomics – and longer footboards and forged aluminium handlebars give you a choice of riding positions. Sportier suspension settings and new lightweight Spin Forged wheels fitted with new Bridgestone tyres provide precise motorcycle-type handling – and the combination of its 560cc engine and best-in-class weight make this the most exciting performer in the A2 license category.

- Powerful 560cc engine
- Dynamic sporty body design
- Projector headlights, integrated flashers
- Improved rider and passenger ergonomics
- Connected TFT screen, full-map navigation
- Smart Key keyless operation
- Lightweight aluminium chassis
- Sophisticated electronic control technology
- Large storage space
- Anti-theft locking centre stand

And when it comes to street presence and attitude, TMAX is still in a class of its own. Its radical new supersport-inspired face features prominent aerodynamic wings and dual air intakes that project an intimidating look. Slim dual projector headlights and a T-shaped LED taillight reinforce the TMAX's high-tech specification – and integrated front and rear flashers accentuate this premium Sport Scooter's sleek and dynamic good looks.

Straight to the MAX.

TMAX is the undisputed King of scooters. It's been Europe's best-selling Sport Scooter ever since the original model was launched in 2001. And for over 20 years this premium high-performance machine has given thousands of riders a thrilling new feeling of total freedom, whether commuting to work in the city or getting out of town and exploring the countryside.

It's equipped with the highest specification connected instruments ever featured on a Yamaha scooter. The best-in-class 7-inch full-colour TFT screen gives you a choice of three display styles – and through Yamaha's MyRide App you can access MyRide – Link that enables the connection with the TMAX, giving access to your smartphone for music, weather, notifications and more. And with Full-map Garmin Navigation*, getting there is quicker and easier. (* Full-map Garmin Navigation requires a subscription service agreement and is not offered in all countries. Some navigation features are not available in all countries, please check with Garmin for availability.)

Featuring a compact and sporty body with a radical face, TMAX is the most dynamic and sophisticated Sport Scooter ever built by Yamaha. Aerodynamic front wings and slimmer dual projector headlights give this high-tech vehicle a supersport-inspired look – and revised ergonomics make this the most comfortable way to move. And its powerful 560cc 35kW engine and ultra-smooth CVT transmission give you motorcycle performance with scooter convenience.

Powerful 560cc engine

The powerful 560cc engine features a unique and compact design that uses a 360 degree crank with a horizontally opposed reciprocating piston balancer for extremely sporty performance together with a high-efficiency CVT drive system for outstandingly smooth running. And to heighten your riding excitement the carefully designed intake and exhaust systems produce a deep and pure 'tuned' sound that is distinctively TMAX!

Dynamic sporty body design

TMAX design moves one step closer to the supersport motorcycle world with its dynamic aerodynamic body. Slimmer dual LED headlights and new front wings with large air intakes as well as boomerang side covers are more TMAX than ever – and lightweight Spin Forged wheels and forged aluminium handlebars underline this sport scooter's premium specification.

Projector headlights, integrated flashers

Take one look at the face and you'll know that this could only ever be TMAX! Its slimmer dual headlights with integrated flashers give a more aggressive look, while the projector design with a mono-focus lens generates a powerful beam. And to emphasize this iconic sport scooter's dynamic looks there's a taillight featuring a T-shaped design with integrated flashers.

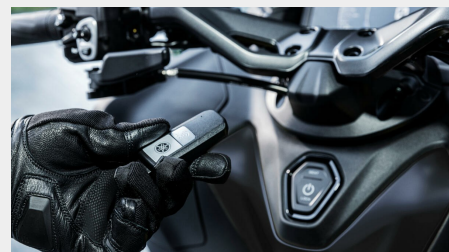

Improved rider and passenger ergonomics

For an ever sportier ride with a higher level of rider and passenger comfort the TMAX is equipped with a longer seat and extended footboards, and the rider's backrest gives 30mm of front/rear movement. The TMAX's slimmer waist gives improved leg reach to the ground, and the shape of the forged aluminium handlebars contributes towards a slightly more forward leaning position for improved feedback.

Connected TFT screen, full-map navigation

Operated by a simple joystick, the sophisticated connected full-colour 7-inch TFT screen features a choice of three display styles. Through Yamaha's MyRide App you can access MyRide – Link that enables the connection with the vehicle, giving access to your smartphone for music, weather, calls** and notifications. Full-map Garmin Navigation* makes every journey easier – while texts can be displayed when your TMAX is parked. (*Full-map Garmin Navigation requires a subscription service agreement and is not offered in all countries. Some navigation features are not available in all countries, please check with Garmin for availability. **Requires Bluetooth connected headset linked to the TMAX. Headset not included.)

Smart Key keyless operation

Using your TMAX is so convenient with the Smart Key in your pocket – and the designed 2-button main switch is simpler than ever to use. This keyless technology enables you to start the engine, unlock the seat and release the centre stand easily and quickly – and you can even unlock the stylish flush fitting aero-style fuel cap.

Engine

Engine type	4-stroke; Liquid-cooled; DOHC; 4-valves; Parallel twin-cylinder
Displacement	562 cc
Bore x stroke	70.0×73.0mm
Compression ratio	10.9:1
Maximum power	35.0 kW @ 7500 rpm
Maximum Torque	55.7 Nm @ 5250 rpm
Lubrication system	Dry sump
Fuel system	Fuel Injection
Ignition system	TCI
Starter system	Electric
Transmission system	V-Belt Automatic
Fuel consumption	4.8L/100km
CO2 emission	112g/km

Chassis

Front suspension system	Telescopic fork
Front travel	120 mm
Rear suspension system	Swingarm
Rear Travel	117 mm
Front brake	Hydraulic dual disc brake, Ø267 mm
Rear brake	Hydraulic single disc brake, Ø282 mm
Front tyre	120/70R15M/C 56H Tubeless
Rear tyre	160/60R15M/C 67H Tubeless

Dimensions

Overall length	2.195 mm
Overall width	780 mm
Overall height	1.415 mm – 1.470 mm (adjustable windscreen)
Seat height	800 mm
Wheelbase	1.575 mm
Minimum ground clearance	135 mm
Wet Weight	218 kg
