

Wolverine® RMAX™4 1000 LE

Reimagine everything.

The resilient painted body of the Wolverine®RMAX™4 LE features limited edition graphics, stylishly complemented by the painted interior and colour matched cut and sew seats. Unique D-Mode with Sport, Trail, and Crawl engine modes, a tilt steering wheel with 17 degrees of adjustment.

Equipped with 29" Carnage tyres and featuring FOX® 2.0 iQS in-cabin adjustable shocks, for increased rider comfort and better control. The shifter and parking brake lever reflect the quality engineering found throughout. A WARN® VRX 45 winch on the upgraded front bumper, interior footwell and console lighting, centre mount mirror, and stylish interior backlit switches complete the picture.

- Brutal, class-leading 999cc machine
- 3 drive modes for selectable power supply
- The most durable ROV transmission on the market
- Top-level capability with an imposing stance
- Comfortable 4 full size high back bucket seats
- Next generation design & aggressive styling
- Upgraded bumper and WARN® VRX 45 winch
- Footwell/console lighting with backlit switches
- Less fatigue and more precise handling by EPS
- Fully loaded with Yamaha Off Road technology
- LE paint interior, exterior, and graphics

Wolverine® RMAX™4 1000 LE

After extensive testing and trials in every condition imaginable, a new level of all-terrain performance was born. The Wolverine® RMAX™4 1000 enables maximum connection between driver and machine – for a groundbreaking one-to-one relationship. Experience leisure riding with friends and family like never before.

Reimagine everything.

Share your adventures in the comfortable, class-leading, auto-inspired cabin with 4-seat versatility. The unmatched power of Yamaha's 999cc parallel-twin engine partners RMAX's unique D-Mode feature with Sport, Trail, and Crawl engine modes, FOX® 2.0 iQS in-cabin adjustable shocks increase rider comfort, for off road exploring in style. #DRIVENBYFREEDOM

The Wolverine® RMAX™4 1000 LE offers unprecedented style and comfort, but also expands your horizons, enabling you to take friends and family out for an exhilarating day of all-terrain adventures. New experiences will be easier to find too, thanks to the amazing on-board features and sophisticated control systems.

The Wolverine® RMAX™ 1000 family follows our development philosophy of "Jin-Ki Kanno" – which translates from Japanese as "The exhilaration of being one with the machine" – to bring you a super-capable Off Roader, in which driver and passengers feel confident to master the very toughest terrain.

Wolverine® RMAX™4 1000 LE

Four seats plus cargo

This is one of the most versatile machines in its class. It seats 1 - 4 adults plus cargo and features an ingenious extra storage ability. By folding and sliding the rear seats forward, the rear area can then securely transport up to 272 kgs with its multiple steel tie-down points. A built in 2-inch receiver is also fitted and ready to tow a full 907 kg load.

Powerful 999cc 2-cylinder Engine

The stunning power of the 999cc, DOHC, 8-valve, parallel twin-cylinder engine delivers class-leading, ultra-smooth performance across the power band - and with the red line at 8,500 rpm, aggressive and spirited riding is what this machine is all about. For complete peace of mind, our legendary durability and reliability is the hallmark of every Yamaha engine.

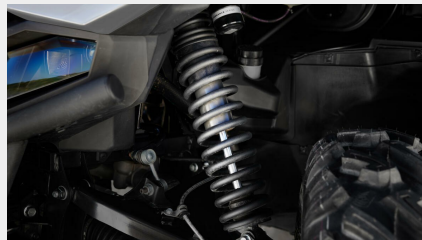

Imposing and aggressive styling

The Wolverine® RMAX™4 1000 LE blends next-level capability with an imposing appearance, thanks to its eye-catching LE painted interior and exterior, LE graphics, aggressive front-end design and rugged Carnage tyres. The LED headlights and "evil eye" marker lights add even more to its distinctive looks, while the LED taillight, brake light, and reverse light provide added visibility.

3 drive modes - 1 ultra-versatile machine

Yamaha's Chip Controlled Throttle (YCC-T) works with our Ultramatic® transmission and On-Command systems to give perfect power delivery in any situation, via its 3-position D-Mode (Drive Mode) control. Choose Sports Mode for wide spaces and spirited driving - Trail Mode for a fun, relaxed ride - or Crawl Mode for slow-speed technical tasks like rock crawling.

Advanced, Comfort-Focused Suspension

The heavy-duty suspension is designed to provide a great handling blend: maximum articulation in low-speed situations - a balanced feel when trail riding - and maximum bottoming resistance with a higher-speed damping feel when manoeuvring aggressively. The wide-arc A-arms paired with easily in-cabin adjustable FOX® iQS shocks provide the perfect front and rear combination.

Roomy 4-person cabin

The premium quality, automotive-inspired cabin design of the Wolverine® RMAX™4 1000 LE offers comfortable, secure seating for four full-sized adults with comfortable handholds and six-position seat belts for each seat. The second row is raised for excellent visibility, so everyone gets a great ride and a good view of their surroundings.

Wolverine® RMAX™4 1000 LE

ATVs with engines up to 50cc are recommended for use only by riders 6 years and older and always with adult supervision. ATVs with engines of 70 to 90cc are recommended only for use by riders 12 years and older, and always under adult supervision. ATVs with engines of 90cc or greater are recommended for use only by riders 16 years and older. Our Side-by-Side Vehicles are recommended for use only by riders of 16 years and older. ATVs and Side-by-Side Vehicles are built to operate within their design limits. Safe towable weights, together with maximum carrying capacity are identified in the owner's manual if applicable. For durability, reliability, but most important of all, operator and passenger (for Side-by-Side Vehicle only) safety, under no circumstances should the recommended capacities be exceeded. ATVs can be hazardous to operate. For your safety: always avoid paved surfaces. ATVs and Side-by-Side Vehicles are designed for unpaved surfaces only. Riding on paved surfaces may seriously affect handling and control and can cause loss of control. Always wear a helmet, eye protection, and protective clothing. Never carry any passengers on ATVs and always wear a seatbelt when riding a Side-by-Side Vehicle. Never engage stunt riding. Riding and alcohol/drugs don't mix. Avoid excessive speed. And be particularly careful on difficult terrain. Please 'tread lightly': always ride in a responsible manner, respecting the environment as well as country and local laws. Yamaha recommends that all ATV and Side-by-Side Vehicle riders take an approved training course. For safety and training information, see your dealer or call your Yamaha Distributor in your country. The specification and appearance of Yamaha products will be varied from time to time without notice, and those shown here are for illustrative purposes only and are not contractual descriptions of products. Some models are shown with optional accessories. The riders in this brochure are professionals: don't attempt to emulate them. All ATVs and Side-by-Side Vehicles come with a 12-month Limited Factory Warranty. See your dealer for details.
