

Make your Move.

Yamaha takes Urban Mobility to the next level with the Tricity 300. Its economical 300cc Blue Core EURO5+ engine gives you plenty of power for riding longer distances on the highway. And its strong torque and smooth acceleration makes this the smartest and quickest way to move in and around the city.

In town you'll appreciate the lowest-in-class weight that makes it so agile and easy to manoeuvre – and the Standing Assist System takes the strain when you stop. Large 267mm disc brakes with ABS on every wheel deliver plenty of stopping power, and the twin 14-inch front wheels add to the feelings of confidence and stability.

Nothing comes close to matching the Tricity 300 in terms of styling. Its dynamic bodywork has been inspired by Yamaha's premium sport scooters – and the chiselled features and compact fairing complement its sporty and agile character. It's the smartest choice for Urban Mobility.

- 3-wheel Urban Mobility with Tricity DNA
- Economical and powerful 300cc Blue Core engine
- Premium finish lightweight EURO5+ exhaust
- Large storage space
- Standing Assist System
- Lightest in class / Great autonomy
- Large diameter disc brakes with ABS
- Parking brake and foot brake
- LCD instruments and high-quality finish

Make your Move.

The Tricity 300 is ready to change your life. Because this 3-wheel scooter gives a feeling of stability and confidence – and, being the lightest and most stylish model in the class, it's the smartest way to move in the city. And the good news is that you can ride it on your full B* car licence! (*Limitations and restrictions may apply per country under applicable laws. Additionally, Yamaha recommends all riders to take a motorcycle training course before riding any two- or three-wheeled vehicles.)

Everything about this premium Urban Mobility vehicle is designed to make commuting simple, easy and fun. The dual leaning front wheels provide additional grip for smooth cornering – and the lightweight steering and narrow dimensions make it easy to filter through congested streets.

Every time you come to a stop the Standing Assist System is a welcome convenience – and when you pull away the responsive 300cc Blue Core EURO5+ engine gets you to your destination in record time. With beautifully styled bodywork and a class-leading specification, the Tricity 300 is the best way to make your move.

3-wheel Urban Mobility with Tricity DNA

Yamaha is opening up the world of Urban Mobility to an even wider audience with Tricity 300. Offering dynamic styling and versatile performance together with best-in-class specifications and user-friendly technology, this accessible 3-wheel scooter can be ridden with a full B car license*, giving more people the chance to move freely around the city. (*Limitations and restrictions may apply per country under applicable laws. Additionally, Yamaha recommends all riders to take a motorcycle training course before riding any two- or three-wheeled vehicles.)

Economical and powerful 300cc Blue Core EURO5+ engine

Driven by a powerful and economical 300cc Blue Core EURO5+ engine Tricity 300 takes Urban Mobility to another level. The liquid-cooled single cylinder 4-stroke engine produces plenty of power for longer distance highway riding – and with its strong and smooth low-speed torque and optimized automatic transmission, you just twist and go!

Premium finish lightweight EURO5+ exhaust

Updates include a new EURO5+ compliant exhaust equipped with a high-quality muffler cover that enhances the Tricity 300's premium finish. This new exhaust system not only helps to reduce emissions, but its lightweight construction also contributes towards this 3-wheel scooter's agile and easy-handling character.

Large storage space

As well as its sporty good looks, sleek bodywork and best-in-class specifications, the dynamic Tricity 300 is also an extremely practical and functional vehicle. There's storage space for two full-face helmets or an A4 briefcase, and you can operate the ignition and locks with the convenient Smart Key. There's also a DC outlet in the front panel for your devices.

Standing Assist System

Urban commuting usually involves a lot of stop-start riding, so Yamaha has developed a Standing Assist System to provide added convenience when you stop at lights or junctions.

Lightest in class / Great autonomy

The Tricity 300 is designed to give you the lightweight agility of a scooter with the added feelings of confidence and stability that come with 3 wheels. As well as being the lightest model in the class it's also got one of the highest specifications – and with its 13-litre tank and aerodynamic body and screen, it's the smarter choice for long journeys.

Engine

Engine type	4-stroke; Liquid-cooled; SOHC; 4-valves; Single cylinder
Displacement	292cc
Bore x stroke	70.0 x 75.9 mm
Compression ratio	10.9:1
Maximum power	20.6 kW @ 7,250 rpm
Maximum torque	28.9 Nm @ 5,750 rpm
Lubrication system	Wet sump
Fuel system	Fuel Injection
Ignition system	TCI
Starter system	Electric
Transmission system	V-Belt Automatic
Fuel consumption	3.3 l / 100 km
CO2 emission	76 g / km

Chassis

Front suspension system	Double telescopic fork
Front travel	100 mm
Rear suspension system	Unit Swing
Rear travel	84 mm
Front brake	Hydraulic disc brake, Ø267 mm
Rear brake	Hydraulic single disc brake, Ø267 mm
