Experience the MAX.

Take a ride on the XMAX 300 and you'll soon see why this is one of Yamaha's best-selling Sport Scooters. Its dynamic bodywork and full LED lighting show that this high-quality machine is built with pure MAX DNA. Get on board and experience the superb riding comfort – and feel the seamless acceleration from the powerful EURO5+ engine. Experience the MAX!

XMAX 300 comes fully equipped with the latest technology that's designed to give you the ultimate riding experience. Its connected 4.3-inch LCD dash displays text, call and email notifications – and the traction control and ABS provide extra riding confidence. Under the seat there's space for two helmets* – and there's a handy USB type C socket. (*Depending on their size and shape.)

XMAX 300 is much more than Yamaha's leading Sport Scooter. Because every detail on this super stylish model has been designed and built to give you an even more enjoyable riding experience – whether commuting into the city or heading off to visit friends and family. Make the move to the MAX now – and feel the benefits every day!

4.3-inch LCD instruments

Designed to convey key information in a clear and simple format, the 4.3-inch LCD dash displays a wide range of useful data. Above the central digital speedometer there's a bar style tachometer, as well as an intuitive series of icons that show you fuel, engine temperature, flashers, high beam and more.

Smartphone connectivity

It's easy to get connected on the XMAX 300. All you need do is download the free MyRide app and pair your smartphone with the 4.3-inch LCD display, and you can view notifications of calls, emails and messages. You can also access machine running data including average fuel consumption, trip details, speed, ride time, lean angle and more.

Dynamic body design

Every model in the iconic Yamaha MAX family is directly related to the legendary TMAX Maxi Scooter that has established a cult status throughout Europe. From the boomerang side motifs through to the angular bodywork and dual LED headlights, everything about the dynamically styled XMAX 300 is shaped by pure MAX DNA.

Radical X-shaped headlight

MAX models are constantly pushing at the boundaries of sports styling and bringing advanced motorcycle design and technology to the Sport Scooter world. Featuring a dramatic X-shaped LED headlight and position light configuration that perfectly matches the dynamic bodywork, the XMAX 300 brings a bold and futuristic look to the street.

Ergonomic seat with easy access

The combination of a well-padded stepped dual seat with a spacious footboard area and foldable passenger footrests makes the XMAX 300 one of the most comfortable ways to commute. The easy access cockpit means that you can get on and off quickly and easily – and the relaxed ergonomics and excellent wind protection ensure a stress-free riding experience.

High-mounted front flashers

For excellent visibility the XMAX 300 is equipped with high mounted front flashers that are integrated in the body panels. Being mounted in this high position, the LED flashers are designed to be clearly visible to other road users when you're filtering through dense traffic conditions.
