NMAX 155 Tech MAX

What makes the NMAX 155 Tech MAX even more special is the new YECVT (Yamaha Electric Continuously Variable Transmission) that allows you to select 'Sport' or 'Town' engine running modes at the push of a button. There is also a new downshift function for stronger acceleration and increased engine braking just when required. So join the MAX and feel the difference!

Join the MAX.

Equipped with innovative new transmission technology, the NMAX 155 Tech MAX is Yamaha's sportiest lightweight that delivers a very special riding experience like no other. Manufactured to a premium Tech MAX specification, this dynamic Sport Scooter gives you 125 class agility with increased 155cc power.

The NMAX 155 Tech MAX's YECVT (Yamaha Electric Continuously Variable Transmission) enables you to select 'Sport' or 'Town' engine performance modes to suit your mood – and the new downshift function instantly delivers stronger acceleration and increased engine braking – giving you the added controllability and sportier feeling of a geared motorcycle.

Featuring iconic MAX-inspired styling with boomerang motifs, full LED lighting and compact bodywork – equipped with a connected TFT colour dashboard with Garmin Navigation* – the new NMAX 155 Tech MAX gives you cutting edge technology with a premium specification at a competitive price. With its smooth suspension, as well as a more refined seat and exclusive colours, it's a machine you'll be proud to own. (*Full map Garmin Navigation is available free of charge but is not offered in all countries. Some navigation features are not available in all countries.)

NMAX 155 Tech MAX

Dynamic MAX-inspired design

The MAX family is the most famous line up of Sport Scooters, the dynamic design and premium finish of the NMAX 155 Tech MAX underlines this model's pure MAX heritage. With its sporty and compact bodywork as well as the characteristic boomerang motifs, the NMAX 155 Tech MAX gives you the opportunity to experience premium Yamaha Sport Scooter design and technology.

Responsive 155cc EURO5+ Blue Core engine

The NMAX 155 Tech MAX is equipped with one of the most sophisticated engines ever produced by Yamaha for a lightweight scooter. Developed using Yamaha's advanced Blue Core technology that ensures minimal fuel consumption with low emissions and optimum efficiency, the 155cc EURO5+ fuel injected engine gives strong performance on the highway and in the city.

YECVT 2-mode adjustable transmission

When you select 'Sport' or 'Town' mode, the YECVT (Yamaha Electric Continuously Variable Transmission) adjusts engine performance to suit riding conditions. The downshift function provides stronger acceleration when you press the Shift button or open the throttle rapidly – and you can also use the same technique to increase engine braking for enhanced controllability during deceleration.

Dual-eye projector headlights

The NMAX 155 Tech MAX's high-tech image is underlined by the sophisticated LED headlight design. Centrally located projector headlights are flanked by dual-eye position lights with integrated flashers, giving this premium Sport Scooter a dynamic look that underlines its status as one of the most desirable lightweights in the category.

Dual LED taillights

The sporty look of the NMAX 155 Tech MAX's compact rear end is enhanced with the dual LED taillights with LED flashers that are integrated into the bodywork to give a dynamic and contemporary look – perfectly matching the MAX family character of this new Sport Scooter.

4.2-inch connected TFT dash

The 4.2-inch full colour connected dashboard is one of the most impressive in the class and features a main TFT display with Garmin Navigation*, as well as an LCD display. By downloading the MyRIde App to your smartphone you can listen to music**, answer incoming calls**, view email and SMS notifications and more, enabling you to keep in touch with family, friends and work. (*Full map Garmin Navigation is available free of charge but is not offered in all countries. Some navigation features are not available in all countries.**Audio services require a separate headset with Bluetooth communication.)
