

Attitude that Excites

Unmatched style and attitude are at the forefront of the design of the MT-125. A new modern and distinctive face design features a sharp, angular front mask and blade-like LED position lights. This machine demands attention whether tearing through urban streets or parked up.

From the very first twist of the throttle, the MT-125 delivers thrilling acceleration and exciting top-end performance when you need it. An aggressive new tank design paired with a distinctive textured panel adds to the sharp profile, while a transparent dark smoke front mask with a glitch effect completes the look, making you stop and stare every time.

A Deltabox-style frame, a wide 140-section rear tyre and 41mm upside down forks give you ultimate handling on any road, whether you're commuting through town or finding long, sweeping roads. And wherever your ride takes you, the 5-inch TFT dashboard with smartphone connectivity and turn-by-turn navigation ensures you've got modern technology as you enjoy every thrill the MT-125 has to offer.

- Torque-rich 125cc EU5+ engine with Variable Valve Actuation
- 5-inch TFT display with smartphone connectivity and navigation
- Compact and aggressive MT bodywork
- Sharp face with blade-like LED lights
- Assist and slipper (A&S) clutch for easy gear changing
- Sporty Deltabox-inspired frame and aluminium swingarm
- High-specification 41mm upside down front forks
- Wide 140-section rear tyre
- Traction control system (TCS)
- Radial mount caliper and large 292mm diameter disc for precise braking performance
- LED indicators for added style and visibility

A Deltabox-style frame, a wide 140-section rear tyre and 41mm upside down forks give you ultimate handling on any road, whether you're commuting through town or finding long, sweeping roads. And wherever your ride takes you, the 5-inch TFT dashboard with smartphone connectivity and turn-by-turn navigation ensures you've got modern technology as you enjoy every thrill the MT-125 has to offer.

Awaken Your Darkness

With its dynamic capabilities, aggressive look and thrilling torque-rich performance, the MT-125 is designed to unleash ultimate agility, attitude and excitement to the 125 class. From the streets of Japan, the unmistakable style and energy of the MT-125 remains loud, bold and true to itself.

Featuring the latest EU5+ 125cc engine with VVA, modern connectivity including turn-by-turn navigation and exceptional handling, the MT-125 connects you to the road and evokes excitement with every twist of the throttle.

Born from pure MT DNA, this agile and lightweight motorcycle is the ultimate introduction to the Hyper Naked riding experience. Waiting to be unleashed on the streets with its dynamic riding position, the MT-125 offers exceptional agility and feel for the ultimate thrill on every ride.

Bold by nature

A bold new look enhances the MT-125's aggressive nature, with a leaner silhouette complemented by distinctive textured panels highlighted by dark smoke, glitchy designs and updated graphics. A sharp, angular front with blade-like LED lights and a dark smoked transparent front mask, brings the MT-125 firmly to the front of the aggressive styling matching with the MT-07 and MT-09.

Torque-rich 125cc EU5+ engine with VVA

The MT-125's thrilling 125cc 4-valve liquid-cooled EU5+ engine is equipped with Yamaha's exclusive Variable Valve Actuation (VVA) system featuring two intake cams. This R125 Supersport-derived technology enables the engine to deliver exciting levels of torque at lower engine speeds and outstanding top-end performance when you open the throttle.

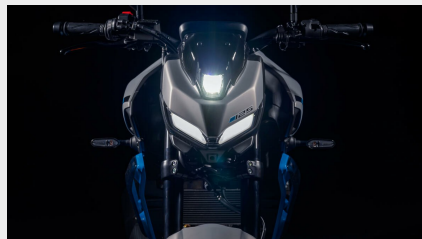

5-inch colour TFT display with connectivity and navigation

The MT-125's 5-inch colour TFT display comes with three switchable themes to present your bike's vital information in crisp clear detail. Connect your smartphone with the free Yamaha MyRide app, so you can manage texts, calls and music while on the go, as well as having turn-by-turn navigation, so you'll never be late again.

Modern and aggressive body design

Slim and athletic bodywork gives a dynamic look that's been strongly influenced by the larger capacity MT models. The MT-125's signature mass-forward styling, compact fuel tank and short tail accentuate the model's aggressive stance – and with its dynamic riding position, you'd better get ready for the most thrilling ride in the class!

Sharp face with blade-like LED lights

The latest MT-125 joins the family with a bold facelift. A new sharp, angular face with blade-like LED lights gives this 125 motorcycle a more aggressive style – completed by a dark smoked transparent front mask and frosted effect logo, while the blade-like lighting emits a strong beam, enabling increased visibility no matter what time of day it is.

Assist and slipper clutch

The MT-125 is equipped with an assist and slipper (A&S) clutch with a super-light feeling at the lever that gives easy gear changing. As well as requiring less physical input from the rider, the A&S clutch importantly makes aggressive high-rev downshifts even smoother and helps prevent rear wheel lock ups to give you greater control of your MT.

Engine		
Engine type	4-stroke; Liquid-cooled; SOHC; 4-valves; Single cylinder	
Displacement	125cc	
Bore x stroke	52,0 x 58,7 mm	
Compression ratio	11,2 : 1	
Lubrication system	Wet sump	
Clutch Type	Wet; Multiple Disc	
Ignition system	TCI	
Starter system	Electric	
Transmission system	Constant Mesh; 6-speed	
Final transmission	Chain	
Carburettor	Electronic Fuel Injection	
Maximum power	11,0 kW (15 PS) @ 10.000 rpm	
Maximum Torque	11,5 Nm (1,2 kgf-m) @ 8.000 rpm	
Fuel consumption	2,0 L/100 km	
CO2 emission	47 g/km
