

RW350

For Everyday Adventure: The RW350

Taking the next step above standard commuting, the RW350 arrives featuring the newly developed 330cc engine and Yamaha Dynamic Ride, positioning itself at the front of the midweight Adventure Scooter class. Its lightweight features and agile handling make every ride an experience you never want to end, encouraging you to twist the throttle and go further than you've wandered before.

A versatile riding position ensures riding comfort whether you're commuting on paved roads or decide to explore further off the beaten path, easily allowing you to switch between seated and standing riding positions so you never have to choose between comfort and function again. Wide footpegs allow easy weight transfer when cornering or riding across rough terrain, and foldable footrests give the option of a relaxed ride on longer journeys.

Never settling for less, adjustable suspension with rally-style inspired wheels and Dunlop D615 tyres ensure that the RW350 offers excellent control and handling on changing terrain. Built for everyday freedom, it allows you to ride across smooth streets, on cobblestones or rugged terrain, while never compromising on comfort.

- Commuter-ready with Adventure DNA
- All-new 330cc engine with Yamaha Dynamic Ride
- YRC modes for extra control: STREET, EXPLORE, ECO
- Stability at the forefront of chassis design
- Long-stroke front suspension with seven adjustable settings on rear twin shocks
- Versatile riding position
- Wide footpegs for easy weight transfer and foldable footboards for added comfort
- Régulateur de vitesse
- Spacious underseat storage with lighting
- Smart Key and auto-cancelling turn signals
- Full colour 5-inch TFT display with connectivity and navigation

Never settling for less, adjustable suspension with rally-style inspired wheels and Dunlop D615 tyres ensure that the RW350 offers excellent control and handling on changing terrain. Built for everyday freedom, it allows you to ride across smooth streets, on cobblestones or rugged terrain, while never compromising on comfort.

Everyday Freedom

The RW350 has been built without compromise to deliver true performance where it counts. Agile handling grants you pure freedom on two-wheels while blending comfort, practicality and the capability to explore further. It makes everyday riding exciting and encourages you to choose your own route, finding new escapes every day.

With adventure coursing through its DNA, the RW350 ensures you no longer have to choose between comfort and function as it pairs a versatile riding position with an all-new 330cc engine and Yamaha Dynamic Ride, which provides excellent stability and riding feel. The RW350 lets you effortlessly manoeuvre through whatever roads you choose. Every twist of the throttle gives you the exact power you're looking for, striking a balance between rugged adventure style and nimble, commuter-like handling.

Standing out in its class, the RW350 leads the way as a midweight scooter with advanced technology features such as YRC modes, Cruise Control, smart key system and TFT dashboard with full connectivity, making sure every ride is smooth and enjoyable whether you're commuting through town or out exploring roads less travelled.

RW350

Commuter-ready with Adventure DNA

Built without compromise on design or capabilities, the RW350 stands out as a leader in its class, delivering true performance whether commuting on paved roads or going further to explore on off-road terrain. It grants you pure freedom on two wheels, breaking through barriers and encouraging you to choose your own route and find a new adventure in everyday riding.

All-new 330cc engine with Yamaha Dynamic Ride

The all-new 330cc engine features the new Yamaha Dynamic Ride layout providing unmatched stability and control as it reduces the unsprung mass of the RW350, while a four-axis balancer enhances comfort by minimising vibration. Altogether, these elements ensure precise handling and power when you want it whether riding through the city or exploring further afield.

YRC modes for extra control

Whether taking on the city or the road less travelled, three YRC modes allow you to select engine power and traction control characteristics to suit your personal preferences. Whether using STREET, EXPLORE or ECO, it gives you great control when facing changing terrain and conditions.

Stability at the forefront of chassis design

With agile handling as well as excellent stability, the RW350's diamond-shaped backbone-type high-tensile steel tube frame gives you a comfortable riding position whether seated on your daily commute or standing when exploring further afield, ensuring you no longer have to choose between comfort and function.

Long-stroke front suspension with seven adjustable settings on rear twin shocks

The RW350 makes no compromise when it comes to agile handling, and its 37mm front fork paired with twin shocks at the rear ensure bumps from rough surfaces and uneven terrain are absorbed effectively, giving you a smooth ride even with a passenger or luggage.

Versatile riding position

Freedom of movement is at the heart of the seat design on the RW350, providing confidence, grip and stability with plenty of space. The rider's seat is tapered to allow you to easily reach the ground, while also allowing easy transitions from seated to standing positions when tackling off-road terrain.
